KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for First Aid and additional precautionary statements, and Directions For Use

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat
DIRECTIONS FOR USE

This product must be used in and around 100 feet of agricultural buildings and non-agricultural structures constructed in a manner so as to be inaccessible to commercial rodent invasions and/or to harboring or attracting rodnent infestations. Fences and perimeter baiting, beyond 100 feet from an agricultural structure, as defined above, is prohibited. This product must not be applied directly to food or feed crops.

Burner baiting with HAWK Meal Bait Place Pacs is prohibited.

Do not use in homes or human residences.

Do not place near or inside ventilation duct openings.

Do not contain water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations.

Do not sell this product in individual containers holding less than 8 pounds of bait.

APPLICATION DIRECTIONS:

- Apply bait at a rate of at least 10 to 15 feet per placement in areas of rodent activity. Maintain an unimpeded supply of fresh bait for at least 10 days or until signs of rodent activity cease to appear.

- MICE AND MEADOW VOLES: Place 1 Place Pac 10 to 12 feet intervals in infested areas. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse or meadow vole* activity cease to appear.

- FOSTER CARE: Replace contaminated or spoiled bait immediately. Wearing gloves, collect and dispose of all dead animals and leftover bait properly. To prevent reinfestation, limit the number of rodents, birds, and insects as much as possible. If reinfestation does occur, repeat treatment.

- Where a continuous source of infection is present, establish permanent bait stations and replenish as needed.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Do not get in eyes or on clothing. Keep away from children, domestic animals and pets.

All handlers (including applicators) must wear long pants, shoes plus socks, and waterproof gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

User Safety Requirements

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish, birds and other wildlife. Dogs, cats and predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait.

Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high-tide mark.

INDIVIDUAL SALE IS PROHIBITED BY LAW

FIRST AID
HAVE LABEL WITH YOU
WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED:
• Call a poison control center, doctor, or 1-877-854-2494, or 1-800-858-7378** immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES:
• Hold eye open and rinse slowly and gently with water for 15–20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

** Also call this number for information on health concerns and pesticide incidents.

NOTE TO PHYSICIAN
If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K₁ intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian at once.

NOTE TO VETERINARIAN
Anticoagulant Bromadiolone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. See outer package label for complete DIRECTIONS FOR USE, including USE RESTRICTIONS, and APPLICATION DIRECTIONS. It is illegal to sell this product unless it is accompanied by a complete set of its accepted labeling.

SEE LABEL ON OUTER PACKAGING FOR ADDITIONAL PRECAUTIONARY INFORMATION
