For disease control and plant health in the commercial production of greenhouse grown tomatoes and tomato transplants for the home consumer market

This label expires on December 31, 2017 and must not be used or distributed after this date.

Active Ingredients:
pyraclostrobin*: (carbamic acid, [2-[[[1-(4-chlorophenyl)-1H-pyrazol-3-yl]oxy]methyl]phenyl]methoxy-, methyl ester) ................................................................. 12.8%
boscalid**: 3-pyridinecarboxamide,2-chloro-N-(4’-chloro(1,1'-biphenyl)-2-yl)- ................................................................. 25.2%
Other Ingredients: ................................................................................................................................. 62.0%
Total: .................................................................................................................................................... 100.0%

* 0.128 oz (0.008 lb) of pyraclostrobin in 1 oz of product
** 0.252 oz (0.0158 lb) of boscalid in 1 oz of product

EPA Reg. No. 7969-251

Directions For Use

• It is a violation of federal law to use this product in a manner inconsistent with its labeling.

• The supplemental labeling and the entire Pageant® Intrinsic™ brand fungicide container label, EPA Reg. No. 7969-251, must be in possession of the user at the time of application.

• Read the label affixed to the container for Pageant Intrinsic before applying.

• Use of Pageant Intrinsic according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Pageant Intrinsic.

Application Information

Refer to the Pageant Intrinsic container label for additional application instructions and restrictions.
Apply Pageant® Intrinsic™ brand fungicide for control of Botrytis gray mold in the commercial production of greenhouse grown tomatoes.

- Apply Pageant Intrinsic as a foliar spray in a minimum of 100 gal/A water volume.
- Allow at least 7 days between applications.
- Applicators and other handlers must wear a NIOSH approved respirator with any N, R, P, or HE filter or NIOSH approval number prefix TC-84A when applying with a mechanically pressurized handgun to greenhouse tomato.
- **DO NOT** use Pageant Intrinsic for tomato transplants that are intended for agricultural production fields.
- **DO NOT** tank mix Pageant Intrinsic with adjuvants or other agricultural products in commercial production of greenhouse grown tomatoes.
- **DO NOT** apply more than a total of 1.1 lbs ai/A (boscalid + pyraclostrobin) [69 ozs/A of Pageant Intrinsic] per year.

**Application Directions.** For control of Botrytis gray mold, apply 23 ozs/A of Pageant Intrinsic prior to onset of disease development when conditions favor disease development. **DO NOT** apply more than 69 ozs/A of product per crop cycle.

**Resistance Management.** To limit potential for development of resistance, **DO NOT** make more than three (3) applications of Pageant Intrinsic or other Group 7 or Group 11 fungicides per crop cycle.

**DO NOT** make more than one (1) application of Pageant Intrinsic before alternating to a labeled fungicide with a different mode of action for at least one (1) application.
Tomato Transplants for the Home Consumer Market

Apply Pageant® Intrinsic™ brand fungicide for disease control on tomato transplants grown for the home consumer market in greenhouses, lathouses, or other production structures to control foliar, stem, crown and root diseases listed in Table 2. Pageant® Intrinsic™ brand fungicide Crop-specific Requirements - Tomato Transplants for the Home Consumer Market.

Pageant Intrinsic is not for use on vegetable transplants intended for agricultural production fields.

To maximize disease control, apply Pageant Intrinsic in a regularly scheduled protective spray program and use in a rotation with other fungicides that are not in Group 7 and Group 11 fungicides. Because of its high specific activity, Pageant Intrinsic has good residual activity against target fungi.

- **DO NOT** exceed 100 gallons per acre spray volume.
- Allow at least 7 days between applications.
- **DO NOT** tank mix adjuvants or other agricultural products with Pageant Intrinsic for use on tomatoes.
- **DO NOT** apply more than two (2) consecutive Pageant Intrinsic applications in any crop production cycle. Rotate to a fungicide of a different mode of action group (non-Group 7 or non-Group 11 fungicides) before reapplying Pageant Intrinsic.
- **DO NOT** apply more than three (3) Pageant Intrinsic applications to any crop during a growing cycle.
- **DO NOT** apply Pageant Intrinsic to consecutive tomato crops within the same production structure. Alternate to other effective fungicides with different modes of action from Group 7 or Group 11 fungicides.
- **DO NOT** use Pageant Intrinsic for tomato transplants that are intended for agricultural production fields.
- **DO NOT** apply more than a total of 1.9 lbs ai (boscalid + pyraclostrobin) [7.3 lbs (118 ozs) of Pageant Intrinsic] in the same production structure per year.

</table>
| Tomato transplants for the home consumer market | Crown and basal rot  
*Fusarium spp.*  
*Rhizoctonia solani*  
*Sclerotinia spp.* | 12 to 18 | 7 to 14 | Use preventively. Begin applications when conditions are favorable for fungal infection, prior to disease symptom development. The crown and base of the plant and the soil or potting medium surrounding the crown must be thoroughly covered. |
| | Damping-off  
*Rhizoctonia spp.*  
*Pythium spp.* | 12 to 18 | 7 to 14 | Use preventively. Begin applications when conditions are favorable for fungal infection, prior to disease symptom development. The crown and base of the plant and the soil or potting medium surrounding the crown must be thoroughly covered. |
| | Downy mildew  
*Peroonospora spp.*  
*Plasmopara spp.* | 12 to 18 | 7 to 10 | Use preventively. Begin applications when conditions are favorable for fungal infection, prior to disease symptom development. |
| | Spots and blights  
*Alternaria spp.*  
*Cercospora spp.*  
*Phoma spp.*  
*Septoria spp.* | 8 to 12 | 7 to 14 | Use preventively. Begin applications when conditions are favorable for fungal infection, prior to or at the first disease symptom development. |
| | Phytophthora blight  
*Phytophthora spp.* | 18 | 7 to 10 | Use preventively. Begin applications when conditions are favorable for fungal infection, prior to or at the first disease symptom development. Alternate and/or tank mix with chlorothalonil, mancozeb or fixed copper fungicides for late blight protection of tomato. |
| | Powdery mildew  
*Levillula spp.*  
*Oidiopsis spp.*  
*Oidium spp.* | 12 | 7 to 10 | Use preventively. Begin applications when conditions are favorable for fungal infection, prior to or at the first disease symptom development. |
| | Rots and blights  
*Botrytis rot*  
*Botrytis spp.* | 12 to 18 | 7 to 10 | Use preventively. Begin applications when conditions are favorable for fungal infection, prior to disease symptom development. |

**Application Directions.** Apply Pageant Intrinsic™ preventively for production of tomato transplants in greenhouses, lathhouses, or other production structures for home consumer market only.

Begin when conditions are favorable for fungal infection, prior to disease symptom development.

For control of listed diseases, apply Pageant Intrinsic™ as a broadcast or directed spray applied in sufficient water to obtain coverage of the plant crown and plant stem through wetting of the soil surface.

*The stated interval applies to conditions under which moderate-to-high disease pressure is expected. If conditions are unfavorable for infection, or if disease pressure is absent, the interval can be extended up to 28 days.*
**Conditions of Sale and Warranty**

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND BASF’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.**

**TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.**

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
