SANI-CLEAN 2
Disinfectant - Bactericidal - Mildewstatic - Fungicide - Virucidal

ACTIVE INGREDIENTS:
Didecyl dimethyl ammonium chloride..................10.14%
n-Alkyl (C14 50%, C12 40%, C16 10%)
Dimethyl benzyl ammonium chloride..................6.76%

INERT INGREDIENTS:.............................................93.10%

TOTAL:.................................................................100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER
See right panel for precautionary statements.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. If breathing is difficult, give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

A multi-purpose, neutral pH, germicidal detergent and deodorant effective in hard water up to 200 ppm [calculated as CaCO₃] in the presence of a moderate amount of soil [5% organic matter] according to the AOAC Use-dilution Test. Disinfects, cleans and deodorizes in one labor-saving step.
For use in hospitals and nursing homes as a disinfectant. Use in schools, colleges, daycare centers, prisons, commercial and industrial institutions, office buildings, airports, hotels and motels.
Disinfects, cleans, sanitizes and deodorizes the following hard non-porous inanimate surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain and plastic surfaces.

Effective against the following Bacteria:
Pseudomonas aeruginosa
Salmonella enterica
Staphylococcus aureus
Acinetobacter baumannii
Chlamydia psittaci
Enterobacter aerogenes
Enterobacter cloacae - NDM-1
Enterococcus faecalis - Vancomycin Resistant [VRE]
Escherichia coli
Escherichia coli - NDM-1
Klebsiella pneumoniae
Klebsiella pneumoniae - NDM-1
Legionella pneumophila
Listeria monocytogenes
Proteus vulgaris
Salmonella typhi
Shigella flexneri
Shigella sonnei
Staphylococcus aureus - Community Associated Methicillin-Resistant [CA-MRSA] [NRS381] USA300 [CA-MRSA] [NRS123] [USA400]
Staphylococcus aureus - Methicillin resistant (MRSA)
Streptococcus faecalis
Streptococcus pyogenes [Strep]
*ATCC & antibiotic-resistant strain

Effective against the following Viruses:
*Adenovirus Type 4
*Hepatitis B Virus [HBV]
*Hepatitis C Virus [HCV]
*Herpes Simplex Virus Type 1
*Herpes Simplex Virus Type 2
*HIV-1 [AIDS Virus]
*Influenza A Virus / Hong Kong
*Rotavirus [WA]
*Rubella Virus
*SARS Associated Coronavirus [SARS]
*Vaccinia [Pox Virus]

Effective against the following Fungi:
Aspergillus niger
Trichophyton mentagrophytes [Athlete's Foot Fungus]

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. Corrosive. Causes irreversible eye damage and skin burns. Harmful if inhaled, swallowed or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles, face shield or safety glasses), protective clothing and rubber gloves (rubber or chemical resistant). Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, smoking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal. PESTICIDE STORAGE: Open dumping is prohibited. Store in original container in areas inaccessible to children. PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representatives at the nearest EPA Regional Office for guidance. CONTAINER DISPOSAL: Nonrefillable Container. Do not reuse or refill this container. Wrap empty container and put in trash.
DIRECTION FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
This product is not for use on medical device surfaces.

DISINFECTION / CLEANING / DEODORIZING DIRECTIONS: Remove heavy soil deposits from surface. Then thoroughly wet surface with a use-solution of 1/2 ounce of concentrate per gallon of water or equivalent. The use-solution can be applied with a cloth, mop, sponge or coarse spray, or soaking. For sprayer applications, use a coarse spray device. Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or allow to air dry. Rinsing of floors is not necessary unless they are to be waxed or polished.
Food contact surfaces must be thoroughly rinsed with potable water. This product must not be used to clean the following food contact surfaces: utensils, glassware and dishes. For Influenza Virus Type A, treated surfaces must remain wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

BACTERICIDAL STABILITY OF USE-DILUTION: Tests confirm that Sani-Clean 2, when diluted in 200 ppm hard water, remains effective against Pseudomonas aeruginosa, Staphylococcus aureus and Salmonella enterica for up to one year when stored in a sealed container such as a spray bottle. If product becomes visibly dirty or contaminated, the use-dilution must be discarded and fresh product prepared. Always use clean, properly labeled containers when diluting this product. Bactericidal stability of the use-dilution does not apply to open containers such as buckets or pails.

FUNGICIDAL DIRECTIONS: For use in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities follow disinfection directions.

MILDEWCIDAL INSTRUCTIONS: Will effectively control the growth of mold and mildew plus the odors caused by them when applied to hard, nonporous surfaces such as walls, floors, and table tops. Apply use-solution of 1/2 oz. per gallon of water with a cloth, mop, sponge or coarse spray. Make sure to wet all surfaces completely. Let air dry. Repeat application weekly or when growth reappears.

*KILLS HIV-1 [AIDS VIRUS] AND HBV [HEPATITIS B VIRUS] AND HCV [HEPATITIS C VIRUS] ON PRECLEANED, HARD NON-POROUS ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood / body fluids, and in which the surfaces / objects likely to be soiled with blood / body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 [HIV-1][associated with AIDS] or Hepatitis B Virus [HBV] or Hepatitis C Virus [HCV].

Special Instructions for Disinfection, Cleaning and Decontamination against HIV-1 [AIDS Virus] or HBV or HCV on Surfaces / Objects soiled with Blood / Body Fluids:
Personal Protection: Disposable protection gloves, gowns, face masks and eye coverings must be worn during all cleaning of blood / body fluids and during decontamination procedures.
Cleaning Procedures: Blood / body fluids must be thoroughly cleaned from surfaces / objects before application of disinfectant.
Contact Time: Mix 1/2 oz. of Sani-Clean 2 per gallon of water [or equivalent dilution]. HIV-1 [AIDS Virus] is inactivated after a contact time of 4 minutes at 25°C [77°F] [room temperature]. HBV and HCV are inactivated after a 10 minute contact time. Use a 10-minute contact time for all other viruses, fungi and bacteria listed.

Disposal of Infectious Materials: Blood / body fluids must be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.
