Directions for Use:
1. Clean and backwash the filter.
2. Adjust the free available chlorine (FAC) level to 1 – 4 parts per million. If the FAC level is less than 1 part per million, add only one stabilizer pod at a time. If the FAC level is more than 4 parts per million, do not add additional pods or other pool products. Only add one pod at a time.
3. If the FAC level is between 1 and 4 parts per million, add the stabilizer pod as directed on the chart shown.
4. Leave the circulation pump running and do not backwash for 48 hours.
5. Use the chart shown to determine the correct amount of this product to use.

Precautionary Statements:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.
CAUTION: Eye irritant. Avoid contact with the skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Do not mix this product with any other chemicals.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IN CASE OF EMERGENCY: CALL: 1-800-654-6911
Have the product container or label with you when calling a poison control center or doctor or going for treatment.

STORAGE AND DISPOSAL:
Keep container tightly closed in a dry, cool location. Keep away from heat or open flame. Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse empty container.

EMERGENCY HANDLING:
In case of contamination or decomposition: DO NOT reseal container if the product: gives off heat, gives off hazardous fumes, gives off poisonous fumes, gives off toxic dust, gives off gases or liquid, expands. Do not cut pods. Do not use in aquatic environments such as lakes, streams, ponds.

STABILIZER & CONDITIONER

PRINCIPAL FUNCTIONING AGENT: Cyanuric acid.............................. 98.5%
CONSTITUENTS INEFFECTIVE AS ADJUVANTS ..............................1.5%
TOTAL: ........................................100.0%

Not for aquatic environments such as lakes, streams, ponds.

KEEP OUT OF REACH OF CHILDREN
CAUTION
EYE IRRITANT
Read all Precautionary Statements and First Aid on back panel before use.
Directions for Use:

1. Clean and backwash the filter.
2. Adjust the free available chlorine (FAC) level to 1 – 4 parts per million (ppm).
3. Measure the stabilizer (cyanuric acid) concentration. The ideal range is 20 – 40 ppm. The chlorine is not as effective without stabilizer. Do not contaminate the pool with excess stabilizer. Follow the label recommendations for the product you are using. Once the pool is stabilized, use the chart shown to determine the correct amount of this product to use.
4. Use the chart shown to determine the correct amount of this product to use.
5. Leave the circulation pump running and DO NOT backwash for 48 hours.
6. Use the chart shown to determine the correct amount of this product to use.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. CAUTION: Eye irritant. Avoid contact with the skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Do not mix this product with any other chemicals.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IN CASE OF EMERGENCY: 1-800-654-6911

STORAGE AND DISPOSAL:

Keep container tightly closed in a dry, cool location. Keep away from heat or open flame. Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse empty container.

EMERGENCY HANDLING:

In case of contamination or decomposition:

1. DO NOT reseal container if the product:
   a. gives off heat
   b. gives off hazardous fumes
   c. emits a new, unusual or strong odor
   d. is contaminated with other product.
2. Call 1-800-654-6911 for assistance.
3. Do not attempt to store:
   a. in a metal container
   b. in a metal drum
4. Dispose of the container and any contaminated material in accordance with local, state and federal regulations.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

poolife Pods™ - Stabilizer & Conditioner

Prevents chlorine loss due to intense sunlight. This product helps to protect chlorine in pool water. It stops the loss of chlorine caused by sunlight. Use this product if sunlight makes it difficult to maintain the correct chlorine level.
