Pre-Measured • Water Soluble

Stabilizer

Extends chlorine life
Sun defense for pool water

Easy-to-use pods make dosing simple!
Net Weight 4 lbs. - Contains (8) 8 oz. Pods

Principal Functioning Agent:
Cyanuric Acid: 98.5%
Constituents Ineffective as Adjuvants: 1.5%
Total: 100%

Not for aquatic environments such as lakes, streams, ponds.
Keep out of reach of children.

Caution
Eye Irritant
Read all precautionary statements and First Aid on back panel before use.

Why you should use this product:
This product helps to protect and extend the life of chlorine in swimming pool water. It slows the loss of chlorine caused by sunlight. Use this product if sunlight makes it difficult to maintain the correct chlorine level.

For crystal clear water, follow our hth® 4 step pool care program:
Step 1: Test and adjust pool water balance,
Step 2: Sanitize, Step 3: Shock treat your pool at least once a week, and Step 4: Add algaecide regularly.

Acceptable Range for Balance

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Alkalinity</td>
<td>60-120 ppm</td>
</tr>
<tr>
<td>pH</td>
<td>7.2-7.8</td>
</tr>
<tr>
<td>Calcium Hardness</td>
<td>Above 200 ppm</td>
</tr>
<tr>
<td>Available Chlorine</td>
<td>1-4 ppm</td>
</tr>
</tbody>
</table>

NOTE: Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Always check and adjust total alkalinity before adjusting pH levels. Use a test kit or test strips that measures all these ranges.

DIRECTIONS FOR USE:
1. Backwash the filter.
2. Adjust the free available chlorine (FAC) level to 1 – 4 parts per million (ppm).
3. Measure the stabilizer (cyanuric acid CYA) concentration. The ideal range is 20 – 40 ppm. The CYA level should not exceed 90 ppm.
4. Be sure the skimmer is clean and free of all chemical residue or debris.
5. Add 1 pod directly into the pool skimmer while the pump is running. Allow the pod to dissolve before adding additional pods or other pool products. Only add one pod at a time.
6. Leave the circulation pump running and DO NOT backwash for 48 hours.
7. Use the chart shown to determine the correct amount of pods to use.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IN CASE OF EMERGENCY: 1-800-654-6911
