Disinfectant • Cleaner • Fungicide • Mildewstat • Virucide* • Deodorizer
for Hospitals, Household, Institutional, Commercial and Industrial Use

Moldex® Mold Killer is effective against a broad spectrum of bacteria, is virucidal*, fungicidal, and inhibits the growth of mildew and their odors when used as directed. Cleans with a fresh scent. Eliminates odors.

DIRECTIONS FOR USE

Si no sabes el inglés, solicite instrucciones a su supervisor antes de usar el producto.

GENERAL CLEANING / DEODORIZING DIRECTIONS: Spray soiled area then wipe clean. Repeat for heavily soiled areas.

DISINFECION DIRECTIONS: Preclean prior to disinfection. Spray 6 - 8 inches from surface, until surfaces are thoroughly wet. Do not breathe spray. Treated surfaces must remain wet for 1 minute for disinfection against bacteria. Follow fungicidal or Virucidal directions when using as a virucidal or fungicidal agent. Wipe dry with a clean cloth, sponge, mop or allow to air dry. Food contact surfaces must be rinsed with potable water after disinfection. Do not use on utensils, glassware and dishes.

FUNGICIDAL DIRECTIONS: Follow fungicide directions for application instructions. Treated surfaces must remain wet for 10 minutes for Herpes Simplex Type 2 and 60 seconds for Influenza A / Hong Kong. Mold and Mildew Control Directions: Moldex® Mold Killer effectively inhibits the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow fungicide directions. Allow to air dry on surfaces. Repeat every 7 days, or when mold or mildew growth returns.

FUNGICIDAL DIRECTIONS: Moldex® Mold Killer is an effective fungicide against Trichophyton mentagrophytes (the Athlete’s Foot Fungus) and Candida albicans (in areas such as kitchen, home office, shower stalls, shower rooms, shower and bath areas, exercise facilities, health clubs and spas). Follow fungicide directions for application instructions. Treated surfaces must remain wet for 30 minutes.

Moldex® Mold Killer does not contain any biocidal agent inactivating on pre-cleaned environmental surfaces / objects previously soiled with blood. Follow fungicide directions for application instructions. Treated surfaces must remain wet for 1 minute for disinfection against bacteria. Follow fungicidal or Virucidal directions when using as a virucidal or fungicidal agent. Follow fungicidal or Virucidal directions when using as a virucidal or fungicidal agent. Wipe dry with a clean cloth, sponge, mop or allow to air dry.

CAUTION: Do not spray on painted surfaces or metal.

CAUTION: Do not breathe spray. Treated surfaces must remain wet for 1 minute for disinfection against bacteria. Do not use on utensils, glassware and dishes.

CAUTION: Do not use on medical device surfaces.

Moldex® Mold Killer is effective as a disinfectant against:

- Pseudomonas aeruginosa [Pseudomonas] (in one minute), Salmonella enterica [Salmonella] (in one minute), Staphylococcus aureus [Staph] (in one minute), Streptococcus pyogenes [Strep], and E. coli (in 1 minute) (for E. coli, 1 minute).
- E. coli (in 1 minute), Salmonella enterica [Salmonella] (in one minute), Staphylococcus aureus [Staph], and Pseudomonas aeruginosa [Pseudomonas] (in one minute).
- Influenza A/Hong Kong [Influenza] (in 10 minutes), Staphylococcus aureus [Staph] (in one minute), and Pseudomonas aeruginosa [Pseudomonas] (in one minute).
- HIV-1 (AIDS Virus) (in 30 seconds), Herpes Simplex Type 2 [Herpes] (in 10 minutes), *HIV-1 (AIDS Virus) (in 30 seconds), *Influenza A/Hong Kong [Influenza] (in 10 minutes), *Herpes Simplex Type 2 [Herpes] (in 10 minutes), *HIV-1 (AIDS Virus) (in 30 seconds).
- Influenza A/Hong Kong [Influenza] (in 10 minutes), Staphylococcus aureus [Staph] (in one minute), and Pseudomonas aeruginosa [Pseudomonas] (in one minute).
- *KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids and in which the surfaces / objects likely to be soiled with blood or body fluids are associated with the potential for transmission of Human Immunodeficiency Virus [HIV] Type 1 [HIV-1].

STORAGE AND DISPOSAL

For household/residential use: Store in original container in areas inaccessible to children. Nonrefillable container. Do not mix or re-use this container. Rinse container and put in trash or offer for recycling if appropriate. For commercial/industrial use: Nonrefillable container. Do not mix or re-use this container. Rinse container and put in trash or offer for recycling if appropriate.
