Contains a Wood Preservative that can lead to rot and decay

Enhances original wood color, Long-Term Water Repellent

PRESERVE IT!

ACTIVE INGREDIENT:

- Contains petroleum distillates, makes the coating resistant to wood rot and decay. Its formula not only

- Resist Peeling & Blistering outdoor wood projects.

Unlike other wood protectors that

V.O.C. MAX. 2.5 Lbs./Gal. (300 g/l)

3 YEAR prevents the proper penetration or adhesion of a new coating.

SURFACE PREPARATION:

Uncoated, Weathered Wood:

Repeat Splash Test to confirm water absorption before applying this product.

Uncoated, New Wood:

If surface requires two coats, first coat absorption is not improved, allow wood to dry a minimum of 30 days in temperate weather (avg. 70°F, 50% humidity), longer in cooler or more humid conditions. Test for absorption again before applying this product.

MAINTENANCE:

Horizontal Surfaces:

Because temperature and humidity fluctuate, allow a minimum 24-48 hours before using deck or sitting on outdoor furniture.

Vertical Surfaces:

Wait 72 hours to reposition furniture on deck.

Do not allow product to dry fully between coats. Apply second coat within 6 hours of the first coat. Another light coat may be applied no later than one hour after first coat. Only half the amount is necessary for the second coat.

APPLICATION:

Horizontal Surfaces:

- Use horizontal application equipment (projects, or synthetic bristle staining brush, stain/paint pad, pump sprayer, HVLP or airless sprayer, or dip (3 minutes). When spraying, work on a ground

- Over-saturate surface with product or allow to puddle to prevent shiners, tackiness, excessive drying time or uneven appearance when

One gallon will cover approximately 150-200 square feet, depending on wood species, age, surface porosity and method of application.

Do not apply product in temperatures below 35°F (1°C) or above 90°F (32°C). Do not apply product when dew or rain is present or possible within 48 hours.

Coverage:

Do not apply product on hot surfaces or under direct sunlight.

Storage and Disposal:

This product will not freeze but may become cloudy at colder temperatures. Keep container and freshly treated articles away from high

Do not give anything by mouth to an unconscious person.

Hold eye open and rinse slowly and gently with water for 15-20 minutes.

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Precautionary Statements

Residential Users: Nonrefillable container. Do not reuse or refill this container. Securely wrap original container

When using this product, wear rubber gloves and eye protection. Do not inhale vapors, spray in or near water.

General Precautions and Restrictions

1. If working with high concentrations of preservative, use a respirator and protective clothing.

2. Product is not recommended for use as a finish on uncedared wood.
Wolman F&P Wood Finish & Preservative

Transparent, Rich Oil Finish

3 YEAR PERFORMANCE GUARANTEED

Protects Wood Against:

DIRECTIONS FOR USE

1. Prepare application surface as needed:
- Prior to project start date, perform a trial brush-out in several inconspicuous areas to ensure the desired color is achieved. (Color properly penetrate wood that is water saturated.
- Before applying this oil-base product, wait at least 24 hours after preparation. This product will not repair existing wood damage such as cracking, checking, splintering or splitting. Make sure entire wood surface absorption is not improved, allow wood to dry a minimum of 30 days in temperate weather (avg. 70°F, 50% humidity), longer in cooler.

2. Repeat Splash Test to confirm water absorption before applying this product.

3. To test for this condition, check the penetration rate of the first 30 sq. ft. area coated. If the coating is dry to the touch in 15 minutes or less, then

4. Vertical Surfaces:
- For best results, apply when outside temperatures are between 50°F and 90°F and when 24 hours of precipitation free
- Use a brush, roller, stain brush, stain/paint pad, pump sprayer, HVLP or airless sprayer, or dip (3 minutes). When spraying, work on a

5. Horizontal Surfaces:
- To determine correct number of gallons required to complete your project, divide total square footage to be coated by 150.

6. MAINTENANCE:
- To the fullest extent permitted by law, in no event shall seller or manufacturer be liable to user, buyer, or any third party f

7. CLEAN UP:
- Do not contaminate water, food, or feed by storage or disposal.

GENERAL PRECAUTIONS AND RESTRICTIONS

1. Do not apply this product in a way that will contact any person or pet.

2. Apply this product only as specified on the label.

ENVIRONMENTAL HAZARDS

1. Do not use or store near heat or open flame.

2. This product will not repair existing wood damage such as cracking, checking, splintering or splitting. Make sure entire wood surface

COMBUSTIBLE –

STORAGE AND DISPOSAL

1. KEEP OUT OF REACH OF CHILDREN

2. CAUTION – contains petroleum distillates, volatile or igni range products solvents

3. Do not mix with other products.

4. To the extent consistent with the applicable law, the exclusive remedy for losses or damages resulting from the Product (including claims
