DIRECTIONS FOR USE:

Product is formulated to disinfect hard, non-porous, inanimate environmental surfaces: of prime importance in controlling the hazard of cross contamination. It is intended for use on hard, non-porous, inanimate environmental surfaces: restrooms and other areas which are prone to odors caused by microorganisms. In addition, this product deodorizes those areas that generally are hard to keep fresh smelling, such as garbage storage areas, empty garage and car, basement, storage rooms, closets, and other areas which are prone to odors caused by microorganisms.

APPLICATION:

Coverage Spray TB: In designed specifically as a general ready-to-use disinfectant for pre-cleaned environmental surfaces/objects/areas.

Coverage Spray TB is designated as an effective virucide in the presence of organic soil when a follow-up rinse with potable water before reuse.

MILDEWSTAT:

To control mold and mildew on pre-cleaned, hard, non-porous surfaces. Spray evenly until surface is covered. Allow product to remain on treated surfaces for 5 minutes. Ventilate building and other closed settings in which there is an expected likelihood of soiling of inanimate surfaces/objects.

DO NOT PRINT SPOT RED TEMPLATE

The product was used on environmental, inanimate hard surfaces of a laboratory setting including various microorganisms: Bacillus Subtilis Spore (ATCC 6539), Escherichia coli (ATCC 11229), Listeria Monocytogenes (ATCC 35152), Yersinia enterocolitica (ATCC 23715), Enterococcus Faecalis (ATCC 51299). No scrubbing is necessary. To control mold and mildew on pre-cleaned, hard, non-porous surfaces. Spray evenly until surface is covered. Allow product to remain on treated surfaces for 5 minutes. Ventilate building and other closed settings in which there is an expected likelihood of soiling of inanimate surfaces/objects.
