
Antimicrobial Antibacterial Sanitizing

**ONE-STEP** disinfectant cleaner that is effective against a broad spectrum of bacteria when used as directed.

**ELIMINATES** Pseudomonas, MRSA, HBV, HCV, E.coli, VRE, Klebsiella, Salmonella in 4 minutes!

Active Ingredients:

- Only I-dimethyl ammonium chloride 0.0799%
- Only I-dimethyl ammonium chloride 0.0444%
- Only I-dimethyl ammonium chloride 0.0345%
- Ethyl alcohol (C2H5O) 32.55%
- Ethyl alcohol (C2H5O) 18.61%
- Ethyl alcohol (C2H5O) 10.15%
- Ethyl alcohol (C2H5O) 7.61%

Other Ingredients:

- 25.8224%
- Total 100.0000%

**KILLS HBV and HCV on PRE-CLEANED ENVIRONMENTAL SURFACES OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in 1 minute.**

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OR HBV OR HCV ON SURFACES / OBJECTS SOILED WITH BLOOD / BODY FLUIDS.** Personal protection: Clean-up must always be done wearing protective gloves, gown, mask, and eye protection.

Cleaning procedure: Blood and other body fluids containing HIV or HBV or HCV must be thoroughly cleaned from surfaces and objects before application of DURISAN DISINFECTANT WIPES. DURISAN DISINFECTANT WIPES can be used for this purpose.
Durisan Disinfectant Wipes
EPA Reg. No. 6836-340-88919

Additional Sizes

80 Large 6" x 6.75"
160 Large 6" x 6.75"
240 Large 6" x 6.75"
**Use DURISAN DISINFECTANT WIPEs on washable hard, nonporous surfaces of: Chairs, Countertops, Diaper changing tables, Breakrooms, Equipment tables, Faucets, Floors, Glass, Showers, Sinks, Staining beds, Telephones, Non-critical hospital equipment surfaces, Receivables, Flats and other hard nonporous surfaces made of acrylic, metal, plastic and Ablutophol (vinyl and plastic).**

**TO OPEN A PACKAGE:**
Remove cover. Pull up wipe corner from center of roll. Thread through hole in the cover. Replace cover. Open center cap on cover to remove wipe. When not in use, close center cap securely to prevent moisture loss.

**DIRECTIONS FOR USE:**
It is a violation of Federal law to use this product in manner inconsistent with its labeling. Do not use as a diaper wipe or for personal cleansing. This is not a baby wipe! Do not flush in toilet. For plastic and painted surfaces, spot test for compatibility before general use. DURISAN DISINFECTANT WIPEs will not harm most surfaces: including acrylic, sealed fiberglass and vinyl. Do not use on unvarnished wood, natural marble or brass. This product is not for use on medical device surfaces.

**TO CLEAN AND DEODORIZER:**
Surface with wipe. Let air dry. Discard used wipe in trash. Do not flush in toilet.

**DISINFECTION / VIRUCIDAL / MOLD AND MILDEW CONTROL DIRECTIONS:**
Wipe surface with wipe until surface is visibly wet. Use enough wipes to thoroughly wet surfaces. Allow surface to remain wet for 4 minutes. For Candida albicans, treated surfaces must remain wet for 8 minutes. For Norwalk [Feline Calicivirus], Norovirus, and Rotavirus, treated surfaces must remain wet for 15 minutes. Let air dry. If surfaces are extremely dirty, clean with another wipe before disinfecting. Dispose used wipe in trash. Do not rinse. Food contact surfaces with clean, potable water after disinfecting. Do not use to disinfect dishes, glassware or ceramics.

**FOR MOLD AND MILDEW DURISAN DISINFECTANT WIPEs will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces.** Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears.

**SANITIZING:**
To sanitize hard, non-porous, non-food contact surfaces; wipe surface, using enough wipes to allow treated surface to remain wet for 15 seconds for Staphylococcus aureus (ATCC 25923), Klebsiella pneumoniae (ATCC 33293), and Campylobacter jejuni (ATCC 29422). For use on hard coated surfaces, clean excess dirt first.

**KILLS HIV and HBV and HCV (PRE-CLEANED):**
ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in healthcare environments. In healthcare environments, in which there is an expected likelihood of spilling ofinnacle surfaces / objects with blood or body fluids, and in which the surfaces / objects likely to be sealed with blood or body fluids can be cleaned with the potential for transmission of human Immunodeficiency virus Type 1 (HIV), hepatitis B virus (HBV) or hepatitis C virus (HCV). Special Instructions for Cleaning and Decontamination Against HIV-1 or HBV or HCV on Surfaces / Objects Soiled with Blood / Body Fluids. Personal protection: Clean-up must always be done wearing protective gloves, mask and eye protection. Cleaning procedure: Blood and other body fluids containing HIV or HBV or HCV must be thoroughly cleansed from surfaces and objects before treatment of DURISAN DISINFECTANT WIPEs. DURISAN DISINFECTANT WIPEs can be used for this purpose.

**Contact time:** Leave surface wet for 1 minute for HIV-1. Use appropriate contact time as listed on label for all other viruses, bacteria and fungi claimed.

**Disposal of Infectious Material:**
Blood, body fluids, cleaning materials and clothing must be disposed of according to local regulations for infectious waste disposal. This product is for use on hard nonporous surfaces not conducive to treatment by immersion or excess liquid against Avian Influenza A.

**PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**
Cautions: Moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**First Aid in Case of Contact:**
In eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor for obtaining further treatment information.

**DURISAN DISINFECTANT WIPEs are effective against:**
Bacteria: Staphylococcus aureus - Community Associated Methicillin-Resistant [CA-MRSA] [NRSA186] [USAS00], Staphylococcus aureus - Community Associated Methicillin-Resistant [CA-MRSA] [NRSA123] [USAS200]. Escherichia coli [E. coli] Salmonella enterica (Salmonella) Enterococcus faecalis - Vancomycin Resistant [VRE] Escherichia coli [E. coli] Enterobacter cloacae [Enterobacter cloacae] Histoplasma capsulatum [Histoplasma capsulatum] Cryptococcus neoformans [Cryptococcus neoformans]

**Fungi:**
Candida albicans

**ANIMALS:**

**STORAGE AND DISPOSAL:**
Store in original container in areas inaccessible to children. Keep securely closed. Do not use near flammable container. Do not use in trash can or recycle. Distributed by DURISAN.com

**A ONE-STEP disinfectant cleaner that is effective against a broad spectrum of bacteria when used as directed.**

**ELIMINATES**
- Pseudomonas, MRSA, HBV, HCV, E.coli, VRE, Klebsiella, Salmonella in 4 minutes!

**Active Ingredients:**
- Oxyepoxydimethylethyl ammonium chloride 0.2099%
- Dielyoxydimethylethyl ammonium chloride 0.2344%
- Dimethylethyl ammonium chloride 0.0545%
- Ethyl-65%, C6H130%, C12H25, 10%
- dimethyl karyo ammonium chloride 0.1214%

**Other Ingredients:**
- 25.023%
- 1.00000%

**Note:** Includes weight of absorbent wipe.

**For Mold and Mildew Disinfectant Wipes** effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears.

**Sanitizing** To sanitize hard, non-porous, non-food contact surfaces; wipe surface, using enough wipes to allow treated surface to remain wet for 15 seconds for Staphylococcus aureus (Staph) (ATCC 6538), Klebsiella pneumoniae (ATCC 3922), and Campylobacter jejuni (ATCC 29482). Use for non-tacky surfaces; clean excess dirt first.

**Kills HIV and HBV on Pre-Cleaned ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in healthcare settings where there is an emergency concern of hazardous body fluids.**

**FIRST AID:**
- In eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor or going for treatment.

**Storage and Disposal:**
- Store in original container in areas inaccessible to children. Keep securely closed with tight cap. Non-refillable container. Do not reuse or refill this container. Discard empty container in trash, or pour out contents of container, then discard empty container. Recycled by: SANIT TECHNOLOGIES, LLC, 4 Dayton Avenue, Passaic, NJ 07055 BA4-2854s.durhan.com

**Contact time:** Leave surface wet for 1 minute for HIV-1. Use appropriate contact time as listed on label for all other viruses, bacteria and fungi claimed.

**Disposal of Infectious Material:**
- Blood, body fluids, cleaning materials and clothing must be disposed of according to local regulations for infectious waste disposal.
- This product is for use on hard nonporous surfaces not conducive to treatment by immersion or excess liquid against Avian Influenza A.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**
- Caution: Causes moderate eye irritation. Avoid contact with eyes or skin. Use gloves or other protective barrier when handling the wipes.

**FIRST AID**
- In eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor or going for treatment.

**Use DURISAN DISINFECTANT WIPES on washable hard, nonporous surfaces of: Chairs, Counters, Diner changing tables, Breakroom Equipment tables, Faucets, Floor, Glass, Showers, Sink, Storage beds, Telephones, Non-critical hospital equipment surfaces, Reusables, Stools and other hard nonporous surfaces made of acrylic, metal, plastic and upholstery (vinyl and plastic).

**To Open a Package:**
- Remove cover. Pull up wipe corner from center of roll. Thread through hole in the cover. Replace cover. Open center cap on cap to remove wipe. When not in use, close center cap to securely prevent moisture loss.

**Directions for Use:**
- It is a violation of Federal law to use this product in a manner inconsistent with the directions on the label.
- Do not use as a diaper wipe or for personal cleaning. This is not a baby wipe. Do not flush in toilet.
- For plastic and painted surfaces, spot test on an inconspicuous area before use. DURISAN DISINFECTANT WIPES will not harm most surfaces: including acrylic, sealed fiberglass and vinyl. Do not use on unpainted wood, natural marble or brass. This product is not for use on medical device surfaces.

**To Clean and Deodorize:**
- Wipe surface with wipe. Let air dry. Discard used wipe in trash. Do not flush in toilet.

**Disinfection / Virucidal / Mold and Mildew Disinfectant:**
- Directions: Wipe surface with wipe until surface is visibly wet. Use enough wipes to thoroughly wet surfaces. Allow surface to remain wet for 4 minutes.
- For Candida albicans, S. aureus, and M. catarrhalis, exposure must remain wet for 8 minutes. For Norwalk Virus (Feline Calicivirus), Norovirus, and Rotavirus, treated surfaces must remain wet for 13 minutes. Let air dry. If surfaces are extremely dirty, clean first with another wipe before disinfecting. Discard used wipe in trash. Do not flush. Rinse food contact surfaces with water before use. Do not use to disinfect dishes, glassware or utensils.

**For Mold and Mildew Disinfectant Wipes** will effectively inhibit the growth of mold and mildew and the odor caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Repeat treatment every seven days, or more often if new growth appears.

**Sanitizing:**
- To sanitize hard, non-porous, non-food contact surfaces, wipe surface, using enough wipes to allow treated surface to remain wet for 15 seconds for Staphylococcus aureus (Staph) (ATCC 6538), Klebsiella pneumoniae (ATCC 3922), and Campylobacter jejuni (ATCC 29482). Use for non-tacky surfaces; clean excess dirt first.

**Kills HIV and HBV on Pre-Cleaned ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS in healthcare settings where there is an emergency concern of hazardous body fluids.**

**HIV-1 or HBV on Surfaces / Objects Soiled with Blood / Body Fluids.**

**Personal Protection:**
- Clean-up must always be done wearing protective gloves, gowns, masks and eye protection.

**Cleaning Procedure:**
- Blood and other body fluids containing HIV or HBV must be thoroughly cleaned from surfaces and objects before application of DURISAN DISINFECTANT WIPES. DURISAN DISINFECTANT WIPES can be used for this purpose.
This product is not for use on medical device surfaces.

**ANTIMICROBIAL ANTIBACTERIAL SANITIZING**

**DURISAN Disinfectant Wipes**

Kills 99.9% of bacteria in 15 seconds!

- **Effective in the presence of 5% serum contamination**
- **Kills Cold & Flu Virus**
- **Kills Mold & Mildew**

These wipes will not harm most surfaces.

- **Reduces Cross Contamination**
- **Does not contain bleach or ammonia**

**A ONE-STEP disinfectant cleaner that is effective over a broad spectrum of bacteria when used as directed.**

**ELIMINATES**

Pseudomonas, MRSA, HBV, HCV, E.coli, VRE, Klebsiella, Salmonella in 4 minutes!

Active Ingredients:
- Cetyl dimethyl ammonium chloride 0.097%
- Cetyl trimethyl ammonium chloride 0.034%
- Alcohol (70.9% V/V, 4.0% IPA, 1.9% IPA)
- Dymethyl lecithin dispersant 0.121%
- Other Ingredients: 5.687%

Total 100.000%

**Note:** Select weight of absorbent wipe.

**Disinfectant**

Aerosol hand spray, cloth being sprayed, or the base of any surface to be disinfected. Spray from 6 to 12 inches away from the surface to be disinfected. Allow 10 to 15 minutes for thorough action. Wipe contaminants from treated surfaces. Do not use on painted or painted surfaces. Use in a well-ventilated area. Do not use in the presence of medical gas or oxygen.

**Disinfectant Wipes**

The product contains 100% active ingredient. Apply to treated surfaces and allow 10 to 15 minutes for thorough action. Wipe contaminants from treated surfaces. Do not use on painted or painted surfaces. Use in a well-ventilated area. Do not use in the presence of medical gas or oxygen.

**Disinfectant Wipes**

For use in areas where the product contains 100% active ingredient. Apply to treated surfaces and allow 10 to 15 minutes for thorough action. Wipe contaminants from treated surfaces. Do not use on painted or painted surfaces. Use in a well-ventilated area. Do not use in the presence of medical gas or oxygen.

**Disinfectant Wipes**

For use in areas where the product contains 100% active ingredient. Apply to treated surfaces and allow 10 to 15 minutes for thorough action. Wipe contaminants from treated surfaces. Do not use on painted or painted surfaces. Use in a well-ventilated area. Do not use in the presence of medical gas or oxygen.
