WHY YOU SHOULD USE THIS PRODUCT:
When used as directed, Spa Selections™ Bromine Tablets will disinfect spa and hot tub water, keeping it clean, clear and free of odor. Spa Selections™ Bromine Tablets give the effectiveness of chlorine without the chlorine odor. Proper sanitary practices require changing spa water at a minimum of every 30 days.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DANGER: Do not mix this product in concentrated form with any other chemicals. Do not add other chemicals to the feeding device when using this product. A violent reaction leading to fire and/or explosion could result. Re-entry into treated spas is prohibited above levels of 8 ppm due to risk of bodily injury.

SPA DIRECTIONS:
NOTE: Before using Spa Selections™ Bromine Tablets in your spa or hot tub for the first time, add 1/2 ounce of sodium bromide per 100 gallons of water to establish a 30 ppm bromide concentration. Also, add sodium bromide at this dosage whenever the spa or hot tub is drained and refilled. The bromide addition ensures immediate establishment of an all-bromine system, eliminates chlorinous odors and maximizes skin and eye comfort.

SPA OR HOT TUB START UP:
To start up a new spa or hot tub, or one recently drained:
• Clean all surfaces
• Backwash or clean the filter
• Chemically balance the calcium hardness and total alkalinity, treat for metals if present (iron, copper and manganese)
• Adjust the pH to 7.2 – 7.8
• Using a suitable feeder adjusted according to the manufacturer’s directions, add Spa Selections™ Bromine Tablets to maintain an active bromine concentration of 2 – 4 ppm in residential spas and 3 – 6 ppm in commercial spas. The presence of organic debris, high bather use and other factors may require a higher dosage.
• Use a test kit to monitor the bromine regularly
• Spa Selections™ Bromine Tablets usage will typically vary from 0.015 to 0.10 pound for every 300 gallons of spa water to maintain the recommended bromine concentration range.

SPA SELECTIONS™ BROMINE Tablets
Brominating sanitizer
Creates soft water feel
Low odor
Fits all floaters

ACTIVE INGREDIENTS:
1-bromo-3-chloro-5,5-dimethylhydantoin......54.2%
1,3-dichloro-5,5-dimethylhydantoin...........28.9%
OTHER INGREDIENTS ................................10%
TOTAL ............................................100%
Total Available Halogen as Bromine......54.2% Total Available Halogen as Chlorine......45.8% KEEP OUT OF REACH OF CHILDREN

DANGER:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth if possible.

NOTE TO PHYSICIAN: Probable mucosal damage may contaminate the use of gastric lavage.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

Precautionary Statements
Hazards to Humans and Domestic Animals.

DANGER:
HIGHLY CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not take internally. Initiating to nose and throat. Avoid breathing dust. Use with adequate ventilation. Do not get into eyes, on skin or on clothing.

Weat protective clothing, chemical resistant gloves and protective eyewear (goggles, face shield or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or on clothing.

PHYSICAL AND CHEMICAL HAZARDS CHEMICAL HAZARD.
STRONG OXIDIZING AGENT.
Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, DO NOT re-seal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water if necessary.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic to fish.

STORAGE AND DISPOSAL:
Store in original container in areas inaccessible to children in a cool, dry, well-ventilated area. Do not store at temperatures above 100°F (38°C). Not for retail sale. Do not reuse or refill this container. Discard empty container in trash or offer for recycling if available.
