**Betco® Glybet™ III Disinfectant Deodorant**

**For use only on hard, non-porous environmental surfaces. Prevents mold and mildew on environmental surfaces in patient rooms and public areas. Excels in schools and conference rooms where formaldehyde and formalin create problems.**

**Antibacterial**

- **Kills 99.9% of** Staphylococcus aureus (Staph) and Streptococcus hemolyticus (Strep), Pseudomonas aeruginosa, Methicillin-Resistant Staphylococcus aureus (MRSA), and vancomycin-resistant enterococcus (VRE) on pre-cleaned, hard, non-porous environmental surfaces.
- **Kills Staphylococcus aureus** (Staph) and **Enterobacter aerogenes** on pre-cleaned, hard non-porous, non-food contact surfaces with a 5 minute contact time.

**Kills 99.9% of**

- **Staphylococcus aureus** (Staph) and **Streptococcus hemolyticus** (Strep) in oral or nasal secretions, blood and other body fluids.
- **Staphylococcus aureus** (Staph) and **Pseudomonas aeruginosa** on pre-cleaned, hard, non-porous environmental surfaces.
- **Staphylococcus aureus** (Staph) and **Enterobacter aerogenes** on pre-cleaned, hard non-porous, non-food contact surfaces.

**Meets AOAC Efficacy Standards for hospital aerosol disinfectants.**

**Sprayed on Surfaces:**

**Spray on Surfaces:**

- **Kills HIV** on pre-cleaned environmental surfaces and objects previously soiled with blood or body fluids in areas such as bathrooms, locker rooms, floors, benches, shower stalls or other non-porous environmental surfaces commonly contacted by bare hand.
- **Kills MRSA** and **vancomycin-resistant enterococcus (VRE)** in oral or nasal secretions, blood and other body fluids.

**DIRECTIONS FOR USE**

- **To Clean:** Prior to disinfection, thoroughly pre-clean or decontaminate all surfaces to be treated by removing all gross filth and heavy soil. Shake well before using.
- **To Use:** Apply by thoroughly wetting the surface with the product. Allow to remain wet for 10 minutes. Allow to air dry.

**For Control of Mold and Mildew on Hard, Non-Porous Environmental Surfaces:**

- **Spray Surface:** until entire area is thoroughly wet. Allow to remain wet for 5 minutes before wiping.

**Hold can upright and spray from a distance of 6 to 8 inches until the entire area is thoroughly moistened.**

- **Allow to air dry.**

- **To Disinfect:**
  - Prior to disinfection, thoroughly pre-clean all surfaces to be treated by removing all gross filth and heavy soil.
  - **Disinfect:** Surfaces with the product, allowing the disinfectant to remain on the surface for the specified contact time. Allow to air dry.

- **Kills HIV** on pre-cleaned environmental surfaces and objects previously soiled with blood or body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces or objects in which it is not practicable or reasonable to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

- **For Control of MRSA and vancomycin-resistant enterococcus (VRE) in oral or nasal secretions, blood and other body fluids:**
  - **Spray:** until the entire area is thoroughly moistened. Allow to remain wet for 5 minutes before wiping.

**STORAGE AND DISPOSAL**

- **Store:** upright in a cool, dry place away from heat or open flame.

- **Pesticide Storage:** The product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is or becomes used for or intended for long-term management of human beings or (2) is or becomes used for or intended for long-term management of human beings and is capable of being sterilized.

- **Kills HIV** on pre-cleaned environmental surfaces and objects previously soiled with blood or body fluids in areas such as bathrooms, locker rooms, floors, benches, shower stalls or other non-porous environmental surfaces commonly contacted by bare hand.

**DISPOSAL OF INFECTIONAL MATERIALS:**

- **Specific barrier protection items** to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks and eye coverings.

**Special Instructions for Cleaning and Decontamination against HIV on Surfaces and Objects Soiled with Blood or Body Fluids:**

- **Personal Protection:**
  - Use of gloves, gowns, masks, face shields, and other personal protective equipment is required.
  - Instruments associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS) shall be handled with extreme caution during the cleaning and decontamination process.
  - Instruments associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS) shall be handled with extreme caution during the cleaning and decontamination process.
  - Instruments associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS) shall be handled with extreme caution during the cleaning and decontamination process.

- **Blood and other body fluids** must be autoclaved and disposed according to federal, state and local regulations for infectious waste disposal.

**This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is or becomes used for or intended for long-term management of human beings or (2) is or becomes used for or intended for long-term management of human beings and is capable of being sterilized.**

**First Aid:**

- **If in Eyes:**
  - Rinse with large amounts of water.**

- **If on Skin:**
  - Wash skin with soap and water.**

- **If ingested:**
  - Do not induce vomiting.

**Precautionary Statements**

- **Hazards to Humans & Domestic Animals:**
  - **Causes substantial, but temporary, eye injury. Do not get in eyes or on clothing.**
  - **May cause temporary skin irritation.**
  - **May cause dermatitis.**

- **Physical or Chemical Hazards:**
  - **Contents under pressure. Do not use or store near heat or open flame.**

- **Carcinogen:**
  - **Cancer – www.P65Warnings.ca.gov.**

**Manufactured for:**

- **Betco Corporation**

- **License No.:** 03108618

- **EPA Reg. No.: 67603-4-4170

- **EPA Est. No.:** 10900-OH-1 or 33915-MI-1

- **Refer to bottom of container for production facility.**

**REFERENCES:**

- See back panel for additional Precautionary Statements and First Aid.

**Keep Out of Reach of Children**

**WARNING:**

See back panel for additional Precautionary Statements and FRAC Information.

**Net Wt.:** 15 1/2 oz. (439 grams)

**1086 DISINFECTANT**
