PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION!

Harmful if inhaled through skin or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Weed dusting may irritate.

Personal Protective Equipment (PPE)

Always use and appropriate PPE when handling this product. PPE must protect the body from exposure to Rainbow Weed Control; it is not a substitute for good work practices. Use protective clothing and equipment appropriate for the particular task being performed. Some of the specific recommendations for PPE are as follows:

• Long-sleeve shirt and long pants.
• Chemical resistant gloves (except for pilots).
• Chemical resistant safety glasses (except for pilots). (Some materials that are chemical resistant to this product are polyethylene, polypropylene, chlorinated rubber, barrier laminates, and tygon, neoprene, and natural rubber.)

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and water. Keep and wash PPE separately from other laundry. Discard clothing and other materials that have been heavily contaminated with this product. Do not re-use.

User Safety Recommendations

Users should wash hands with plenty of soap and water before eating, drinking, chewing gum, smoking, using tobacco, or using the toilet. Should remove clothing/launder clothes immediately if pesticide gets on. Wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Physical and Chemical Hazards

Rainbow Weed Control may be applied to noncropped areas or land that is on a farm. Do not apply to land that is on a farm. Do not apply to land that is on a farm. Do not apply to land that is on a farm.

Environmental Hazards

This product is toxic to registered aquatic species only in and around irrigation (irrigation) drains, irrigation (irrigation) ditches, or irrigation (irrigation) laterals. Treat irrigation water only in and around irrigation (irrigation) drains, irrigation (irrigation) ditches, or irrigation (irrigation) laterals. Do NOT use on rock, soil, or land that is on a farm. Do NOT use on rock, soil, or land that is on a farm. Do NOT use on rock, soil, or land that is on a farm.

Drift Requirements

Ground Boom Applications:(1) Applicators are required to use a height below 4 feet above the ground or plant canopy. (2) Applications with wind speeds greater than 10 mph are prohibited. (3) Applications into temperature inversions are prohibited.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do NOT apply this product in a manner inconsistent with its labeling. Do NOT apply this product in a manner inconsistent with its labeling.

Restrictions

Do NOT use on food or feed crops. Do NOT treat irrigation ditches, or water used for crop irrigation or for livestock watering. Do NOT use on rock, soil, or land that is on a farm. Do NOT use on rock, soil, or land that is on a farm. Do NOT use on rock, soil, or land that is on a farm.

Application Instructions

Read the label thoroughly before application. Do NOT apply Rainbow Weed Control to land that is on a farm. Do NOT apply Rainbow Weed Control to land that is on a farm. Do NOT apply Rainbow Weed Control to land that is on a farm.

Container handling for bag:

Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning, stay out of smoke.

Disposal

The label instructions for the use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of an application of the product contrary to label instructions. All such risks shall be assumed by the user.

Rainbow Technology Corporation warrants only that the material contained herein conforms to the chemical description on the label and is reasonably fit for the use therewith described when used in accordance with the directions of use, except to the risks referred to above.

Any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profits or values of any other special or indirect damages. To the extent consistent with applicable law, Rainbow Technology Corporation makes no other express or implied warranty, including other express or implied warranty of FITNESS or MERCHANTABILITY.

Best Management Practices

To the extent possible, use a diversified approach toward weed management. Whenever possible incorporate multiple weed-control practices such as mechanical cultivation, and biologically managed practices. To the extent possible do not allow weed escapes to produce seeds, which may contaminate soil and the seed bank.

Identify weeds present in the application site through scouting and soil site history and understand their biology.

The weed-control program should consider all of the weeds present.

Difficult to control weeds may require sequential applications to reduce off site injuries and drift from Rainbow Weed Control. Do not apply more than two applications of this or any other herbicide with the same mechanism of action within a single growing season unless mixed with an herbicide with another mechanism of action (MOA) with an over-lapping spectrum for the difficult-to-control weeds.

Resistant weeds can be controlled with herbicides with a different MOA or use non-chemical methods to reduce escapes. Contact your local sales representative, crop advisor, or extension agent to find if suspected resistant weeds to this MOA have been found in your region. If resistant biotypes of target weeds have been reported, use the application rates of the product specified for your local conditions. Tank mix products so that they may have effective mechanisms of action for each target weed.

Physical and Chemical Hazards

Rainbow Weed Control may be applied to noncropped areas and only in lined paper bags, stainless steel, fiberglass, plastic and plastic-lined steel containers. Do NOT mix or store Rainbow Weed Control in unlined steel (except stainless steel containers).

Environmental Hazards

This product is toxic to registered aquatic species only in and around irrigation (irrigation) drains, irrigation (irrigation) ditches, or irrigation (irrigation) laterals. Treat irrigation water only in and around irrigation (irrigation) drains, irrigation (irrigation) ditches, or irrigation (irrigation) laterals. Do NOT use on rock, soil, or land that is on a farm. Do NOT use on rock, soil, or land that is on a farm. Do NOT use on rock, soil, or land that is on a farm.
