Chempro CP-45
Water Conditioning Agent, Surfactant, and Humectant

Principal Functioning Agents:
Monocarboxamide dihydrogen sulfate, Polyethylene glycol mono(branched p-nonylphenyl) ether, and 1,2,3-propanetriol...79.9%
CONSTITUENTS INEFFECTIVE AS A SPRAY ADJUVANT.................................................................20.1%
Total ........................................................................................................................................100%

KEEP OUT OF REACH OF CHILDREN

DANGER

Causes serious eye damage and severe skin burns. May be harmful if swallowed, inhaled, or absorbed through skin.

PRECAUTIONARY STATEMENTS
Do not breathe mist or spray. Wear eye and/or face protection. Wash hands, face, and other affected areas thoroughly after handling. Use only outdoors in a well-ventilated area. Disposal of contents and/or container must be in compliance with local, state, and federal laws and regulations.

FIRST AID
IF SWALLOWED: Call a POISON CENTER or doctor / physician if you feel unwell. Rinse mouth. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. Call a poison control center or doctor immediately for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED: Call a POISON CENTER / doctor / seek medical attention if you feel unwell. Remove person to fresh air and keep comfortable for breathing.

GENERAL INFORMATION
Chempro CP-45 is a water-conditioning agent, acidifier, humectant, and non-ionic surfactant, that replaces the need for ammonium sulfate and other adjuvants. Chempro CP-45 contains surfactants as well as acidifying, buffering and chelating agents which aid in maintaining the right pH in the tank mix solution and block hard water cations from interacting with the pesticide molecule. Chempro CP-45 is designed for use with glyphosate herbicides or other herbicides containing glyphosate as part of the formulation. Do not use with pesticides containing DSMA or sulfonylurea chemistries.

ENVIRONMENTAL HAZARDS: Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters. NOT FOR AQUATIC USE IN CALIFORNIA or WASHINGTON STATE.

DIRECTIONS FOR USE

<table>
<thead>
<tr>
<th>Application</th>
<th>Use Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fully loaded glyphosate</td>
<td>0.25 – 0.5% v/v</td>
</tr>
<tr>
<td>Partially loaded glyphosate</td>
<td>0.5 – 1.0% v/v</td>
</tr>
<tr>
<td>Unloaded glyphosate</td>
<td>0.5 – 1.0% v/v</td>
</tr>
<tr>
<td>pH buffering and acidification only</td>
<td>0.125 – 0.25% v/v</td>
</tr>
<tr>
<td>General purpose applications</td>
<td>0.25 – 1.0% v/v</td>
</tr>
<tr>
<td>Water conditioning in place of 8.5 – 17 lbs of ammonium sulfate (AMS)</td>
<td>0.375 – 1.0% v/v</td>
</tr>
</tbody>
</table>

If the applicator does not have experience using this product, a phytotoxicity (jar) test must be performed to facilitate safety and compatibility with each tank mix. Do not add Chempro CP-45 at a level that would exceed 2% v/v of the finished spray volume. Do not apply Chempro CP-45 at a rate above 1.5 pints per acre.

MIXING
All spray mixing and application equipment must be thoroughly cleaned before pesticides are applied.
1. Fill spray tank half full of water and start agitation.
2. Add desired rate of Chempro CP-45 to water before adding pesticides.
3. Add pesticides as directed by the label, while maintaining agitation.

STORAGE AND DISPOSAL INFORMATION
STORAGE: Store product in original container only. Do not allow other chemicals to be introduced into the container. Keep this container closed and locked up when not in use.

DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Triple rinse container and pour rinsate into spray tank. Do not reuse container. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org. Dispose of contents/container in accordance with local/national regulations.

NOTICE OF WARRANTY: Seller warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of the Seller. IN NO CASE SHALL SELLER BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER. SELLER MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.
