BBJ MMR-II Disinfectant/Cleaner is designed specifically as a general non-acid, ready-to-use, non-abrasive, cleaner and disinfectant for use in homes, hospitals, nursing homes, operating rooms, public restrooms, schools, food processing plants, office buildings, manufacturing facilities, lodging establishments, retail businesses, and athlete/recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. For plastic and painted surfaces, spot test on an inconspicuous area before use. May be used in the kitchen on counters, sinks, appliances, and stovetops. A rinse with potable water is required for surfaces in direct contact with food. In addition, this product deodorizes those areas that generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms. This product contains no phosphates or phosphorous. Cooling Coils Disinfectant Cleaner: This product is a ready-to-use disinfectant cleaner for HVAC cooling coils and refrigeration equipment evaporation coils. When using this product to disinfect and clean cooling coils, disconnect power to the unit before applying product. Follow directions under the DISINFECTION, DEODORIZING AND CLEANING section.
