CLEANER • DISINFECTANT
SYNERGIZE® - Ostrich, Emu and Rhea Facilities, Calf Pens and associated Farm Vehicles.

SYNERGIZE® is a multi-purpose disinfectant-cleaner. Used in a room as a disinfectant for hard non-porous surfaces. Not for use on feed, food or litter.

For 24-hour emergency information on this product, call 1-800-498-5743 (US & Canada) or 1-651-523-0318 (all other areas).

**DIRECTIONS FOR USE IN POULTRY HOUSES:**

1. For fogging: Before fogging, remove all poultry and leaves from premises, trucks, coops, and crates. Close all doors and windows. Pull the hatch. Do not allow people to contact or breathe this fog and do not enter machines until the fog has been exhausted. To prepare fogging solution, mix 300 ml (10 fluid ounces) of SYNERGIZE® with 4 liters (1 gallon) of water (1:16).

2. For use with a room fogging device: Use a room fogging device with a high output atomizer designed for producing micro-fine droplets. Adjust the atomizer setting to produce a fine mist. Place the nozzle at least 1 meter from all objects and surfaces. Make sure the nozzle is capable of delivering 100 ml (3.4 fluid ounces) of the use solution per minute. After fogging, the building must be kept closed for twenty-four (24) hours. After twenty-four (24) hours, the fog must have settled and the house can now be opened and aired. The house must be kept closed for at least four (4) hours after fogging before opening.

3. Thoroughly clean all surfaces with soap or detergent and rinse with water.

4. Remove all poultry and feeds from premises, trucks, coops, and crates.

5. Empty all troughs, racks, and other feeding and watering appliances.

6. Remove all animals and feed from the premises, vehicles, and enclosures.

7. Pull the hatch. Do not allow people to contact or breathe this fog and do not enter machines until the fog has been exhausted.

8. Saturate surfaces with ½ ounce (15 ml) of SYNERGIZE® in a solution of 10 parts water (1 part SYNERGIZE® per gallon of water (1:256)). Allow to remain in contact for 10 minutes.

9. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing manure in a solution of ½ ounce (15 ml) in a solution of 10 parts water (1 part SYNERGIZE® per gallon of water (1:256)). Allow to remain in contact for 10 minutes.

10. For use with a room fogging device: Use a room fogging device with a high output atomizer designed for producing micro-fine droplets. Adjust the atomizer setting to produce a fine mist. Place the nozzle at least 1 meter from all objects and surfaces. Make sure the nozzle is capable of delivering 100 ml (3.4 fluid ounces) of the use solution per minute. After fogging, the building must be kept closed for twenty-four (24) hours. After twenty-four (24) hours, the fog must have settled and the house can now be opened and aired. The house must be kept closed for at least four (4) hours after fogging before opening.

**STORAGE AND DISPOSAL:**

Do not contaminate water, food, or feed by storage or disposal.

**RECOMMENDATIONS:**

Do not use on glazed ceramic and tile surfaces, stainless steel, aluminum, chrome, galvanized metal, tin, brass, zinc, glass, or painted surfaces. Made from surfactant and quaternary ammonium derivatives, this product is toxic to fish, aquatic invertebrates, oysters, and shrimp. Do not apply directly to water. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into lakes, rivers, streams, or other bodies of water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, rivers, streams, or other bodies of water.

**FIRST AID:**

1. Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center, doctor, or go for treatment advice. Have person sip a glass of water solution. Allow the solution to come in contact with the boot/shoe for 10 minutes. Change the disinfecting solution when needed. Wash hands and thoroughly clean all surfaces before reuse.

2. For 24-hour emergency information on this product, call 1-800-498-5743 (US & Canada) or 1-651-523-0318 (all other areas).

**PESTICIDE DISPOSAL:**

Do not reuse empty containers. Do not expose containers to weather or sunlight. Do not allow the solid materials or liquid to come in contact with your skin, face, or eyes, or contact your clothing. Do not store containers in other areas. Do not place containers in or upon any empty building. Do not store containers where they will be exposed to the sun.

**NOTICE TO ADVISOR:**

The information presented is for use in general poultry or livestock. Special conditions and requirements may apply to the product in the area. Seek special advice if necessary.
