Hazards To Humans And Domestic Animals

DANGERS: Phosphine gas is highly toxic and may cause death if inhaled. DO NOT ENTER CONFINED SPACES OR ANY BUILDING WHERE PHOSPHINE GAS IS USED AS A FUMIGANT

ALUMINUM PHOSPHIDE PH3 ALP FUMIGANT PELLETS

• Metallic phosphorus and elemental phosphorus are flammable.
• Aluminim phosphide fumigant pellets will react with moisture from the air, water, acids and many other liquids to release phosphine gas, which is toxic.
• Fumigants fumigate may cause respiratory symptoms, nausea, vomiting, dizziness, headache, abdominal pain, diarrhea, coughing, eye irritation, allergic reactions, rashes, burning eyes, skin rash, and/or swelling of the mouth.
• Ingestion of large amounts of fumigating gases may cause hypoxia (oxygen deficiency in blood tissue). Frequent exposure to subacute concentrations over a period of days or weeks may cause poisoning. Treatment is symptomatic.

FIRST AID: In case of exposure to this product, seek medical attention immediately. Do not give anything by mouth to an unconscious person.

IF IN EYES:
• Do not rub eyes. Call a Poison control center or doctor promptly after emptying.
• Remove contact lenses, if present, and wash out eyes with plenty of water for 15 minutes. Call a Poison control center or doctor promptly after emptying.

IF INHALED:
• If person is not breathing, call 911 or an ambulance, give artificial respiration immediately, preferably by mouth-to-mouth. • Keep patient lying down; call a Poison control center or doctor promptly after emptying.

Note to Physician:
• Do not induce vomiting or give anything by mouth to an unconscious person. Consult a Poison control center or doctor promptly after emptying.

TO THE USER:
(See side panels for additional precautionary statements.)

RESTRICTED USE PESTICIDE

TO AVOID ACUTE INHALATION TOXICITY OF PHOSPHINE GAS.

FOR BURROWING RODENT APPLICATIONS, THE USE OF THIS PRODUCT IS STRICTLY PROHIBITED WITHIN 100 FEET OF ANY BUILDING WHERE HUMANS AND/OR DOMESTIC ANIMALS DO NOT RESIDE OR IN ANY WET OR MULTI-FAMILY RESIDENTIAL FOUNDRY.

FOR USE AGAINST LISTED INSECTS WHICH INFEST STORED COMMODITIES, AND CONTROL OF BURROWING PESTS.

ACTIVE INGREDIENT: ALUMINUM PHOSPHIDE

Lot Number: __________

Sean paris also provided additional precautionary statements.

Reduced use pesticide requirement.

Precautions for dealers and retailers:

Due to active ingredient, aluminum phosphide (PH3 ALP) is a pesticide stored in a dry and well ventilated area away from heat, under lock and key. Place as a pesticide storage area.

Storage and Disposal

Non-refillable container. Do not reuse or refill this container. For reapplication, triple rinse container (or equivalent) promptly after emptying.

For chemical emergency: spill, leak, fire, explosion, or accident, call 1-844-410-3419.

Note to user:
• Do not use this product where children are likely to play with it.

Keep out of reach of children.

See side panels for additional precautionary statements.

ATTENTION:

The complete label for this product consists of the container label and applicator's manual which may be located in the same package. If you have any questions or do not understand any part of this labeling, contact the local EPA Regional Office or state agricultural or pest control agency.

The U.S. Environmental Protection Agency has determined that this fumigant is considered to be among the most effective products currently available for termite control, and in some cases, for rodent control. This product is not restricted for use against termite. Modifications to the label for termite control are under consideration and will be available when finalized.
