This product contains 3.4 lbs of ammonium sulfate per gallon

**Precautionary Statements:**
May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves.

**FIRST AID**

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact CHEMTREC at 1-800-424-9300.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Applicators and other handlers must wear:

- Protective goggles or safety glasses
- Long-sleeved shirt and long pants
- Chemical-resistant gloves, such as barrier laminate, butyl rubber, nitrile rubber or viton
- Shoes plus socks

Follow manufacturer's instructions for cleaning PPE. If no such instructions exist, use detergent and hot water. Keep and wash PPE separately from other items.

**STOP - READ ENTIRE LABEL BEFORE USING**

**SHAKE WELL BEFORE USING**

**NET CONTENTS:** 2.5 GAL (9.46 L)

PRODUCT INFORMATION

FBN AMS PRO™ is a micro-homogenized blend of ammonium sulfate and drift reduction agents. It can enhance the performance of spray applications by improving spray tank water quality and minimizing hard water interference with herbicide activity. FBN AMS PRO contains a polymer-based drift control additive to improve on-target deposition and retard the formation of small spray particles that can drift off-target. Ammonium ions in FBN AMS PRO can improve herbicide absorption. FBN AMS PRO is designed for use with herbicides and other crop protection products where the addition of AMS is required or recommended, or where the spray mixture benefits from the addition of a water conditioner or drift control agent.

Equipment hygiene and condition, environmental factors and sprayer calibration will affect the efficacy of sprays mixtures that contain FBN AMS PRO. It may be necessary to periodically recalibrate the sprayer and adjust the adjuvant rate. When used according to the Directions for Use, FBN AMS PRO is compatible with most pesticides and fertilizers. Rates of FBN AMS PRO may vary with plant and environmental conditions at the time of application.

Not for aquatic use.

DIRECTIONS FOR USE

FBN AMS PRO may be used with agrochemicals and other products registered for agricultural, horticultural, turf, ornamental, industrial and non-crop uses. Prior to use, read all directions on this label and on the label of the product to be applied. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture under local conditions.

NOTE: Some pesticides or pesticide tank mix combinations may cause phytotoxicity to susceptible crops when used with adjuvants. Use caution at higher application rates on sensitive crops. It is recommended that the applicator, user, advisor or crop consultant have experience with the combination before adding FBN AMS PRO to spray mixes. Otherwise apply a small test area and check the results before widespread use. Exercise care when using FBN AMS PRO for the first time on new varieties or crops.

USE RATES

Application Rate

1 – 5 gallons per 100 gallons of spray solution

(Use higher rates in severe hard water areas)

These rate recommendations are considered to be sufficient for most uses. Some pesticide labels may require higher or lower adjuvant rates. Read and follow the pesticide(s) labels and directions in such cases.

MIXING:

It is the user’s responsibility to ensure that all products are registered for the intended use. Read and follow the applicable restrictions and limitations and directions for use on all product labels involved in tank mixing. Users must follow the most restrictive directions for use and precautionary statements of each product in the tank mixture.

Before using this product make sure spray equipment is clean and in proper working order, including tanks, lines, strainers and gauges. Follow all cleaning directions of the pesticide label. Fill spray tank one-half full with clean water and start agitation. Add FBN AMS PRO first. Add additional AMS if needed or required. Then add pesticides in the following order, or as directed by the pesticide label: Dry flowables or water dispersible granules > Wettable powders > Flowables > Solutions > Emulsifiable concentrates. Continue filling and continue agitation.

Note: Use a jar test to determine compatibility of tank mix components. Do not mix FBN AMS PRO with other adjuvants or crop protection products in undiluted form.

CONDITIONS OF SALE AND WARRANTY

FBN inputs, LLC warrants only that this product conforms to the product description on the label. Other than the foregoing Limited Warranty, this product is sold on an “as is” basis. FBN Inputs, LLC disclaims to the extent consistent with applicable law, all other warranties of any kind, either express or implied, including, but not limited to: the implied warranty of merchantability, the implied warranty of fitness for a particular purpose, that the use of this product will cause or result in any particular outcome, or the product’s compatibility with other products. Some states do not allow limitations on how long an implied warranty lasts, so only portions of the above limitations may apply to user or buyer.

To the extent consistent with applicable law, under no circumstances and under no legal theory (including, without limitation, tort, contract, strict liability, or otherwise) shall FBN Inputs, LLC be liable to user or buyer for (A) any indirect, special, incidental, or consequential damages of any kind, including damages for lost profits or unrealized savings, crop loss, loss of yield, loss of goodwill, work stoppage, or (B) any amount, in the aggregate, in excess of the amount actually paid for this product, exclusive of taxes, shipping & handling, and any other applicable fees, or (C) any other matter. FBN Inputs, LLC further disclaims any liability for compensatory or other damages arising out of any use contrary to label directions. Some states do not allow the exclusion or limitation of certain damages, so only portions of the above limitations and exclusions may apply to user or buyer.
