CLEANING PROCEDURES:

**BLOOD/BODY FLUIDS. PERSONAL PROTECTION:**

Type 1 or Type 2 (HIV-1 or HIV-2) (associated with AIDS) and Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

Type 3 (HIV-1, HIV-2, HBV, and HCV) and other bloodborne pathogens that can cause serious infections are present on inanimate objects or surfaces after blood or body fluids are spilled on them. The potential for these infections to cause serious disease is greatest when the blood is fresh and contact occurs with mucous membranes or open wounds.
