STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

PECSTIDE STORAGE: Open dumping is prohibited. Store in original container in areas inaccessible to children.

PECSTIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container.

Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL:
Open dumping is prohibited. Store in original container in areas inaccessible to children.

PESTICIDE STORAGE:
Do not contaminate water, food or feed by storage or disposal.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION. Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing.

FIRST AID:
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or doctor or going for first aid.

IF IN EYES: Rinse eyes immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or doctor or going for first aid.

INHALATION: Move victim to fresh air. If person is not breathing, call 911 and give CPR if trained to do so. If you or others are affected, leave the area immediately. If breathing has stopped, give artificial respiration. Call a physician immediately.

INGESTION: Do not induce vomiting. Call a physician immediately.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on medical device surfaces.

DISINFECTION/VI/RUCID/FUNGICIDAL/MOLD & MILDWEA D DIRECTION: If surfaces are visibly dirty or pre-clean first. Spray 6 - 8 inches from surface, until surfaces are wet. Repeat application on all surfaces. Rinse surface with water. Use a brush or scrubbing pad with a soft scrub or a soft toothbrush. Apply by brush, sponge, cloth or spray on hard, nonporous surfaces. Wipe dry with a clean cloth, or sponge or allow to air dry. Do not use on any surfaces. Keep container with the product in a safe place out of reach of children and pets. Do not use in a confined space.

In a confined space, allow at least 15 minutes ventilation. Use a 10 minute ventilation period if there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids.

If surfaces are visibly dirty preclean first. Spray 6 - 8 inches from surface, until surfaces are wet. Use a brush, sponge or cloth. Treated surfaces must remain wet for 10 minutes. Wipe dry with a clean cloth, or sponge or allow to air dry. Do not use on any surfaces. Keep container with the product in a safe place out of reach of children and pets. Do not use in a confined space. Use a 10 minute ventilation period if there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids.

KEEP OUT OF REACH OF CHILDREN
Caution: Harmful if absorbed through the skin. Avoid contact with skin, eyes or clothing.

Wash thoroughly with soap and water after handling.

Effective against HIV-1 [AIDS virus] [previously known as Human Immunodeficiency Virus Type 1 (HIV-1)] (associated with AIDS).

Special Instructions for Cleaning and Decontamination against HIV-1 [AIDS virus] of Surfaces / Objects Soiled with Blood / Body Fluids

Cleaning Procedures: Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant.

Contact Time: Effective against HIV-1 [AIDS virus] on hard, nonporous surfaces in the presence of a moderate amount of organic soil (3% blood serum) [providing 1800 previous disinfection quarters] for a contact time of 5 minutes at room temperature (20° - 25°C). Use a 10 minute contact time for disinfection against all other bacteria, fungi and viruses claimed.

Disposal of Infectious Materials: Blood and other body fluids must be properly handled and dis- posed of according to federal, state and local regulations for infectious waste disposal.
