Disinfectant Spray

Kills 99.9% of Germs (Sanitizing) in 10 minutes*

Active Ingredients:
- n-Alkyl (85% C14, 20% C12, 5% C10) dimethyl benzyl ammonium chloride.........69.0%
- n-Alkyl (60% C 14, 30% C16, 5% C12, 5% C18) Active Ingredients: EPA Reg. No. 90253-2               EPA Est. 90776-CHN-1
  Staphylococcus aureus, Streptococcus pyogenes,
  Trichophyton interdigitale
  and Vancomycin-resistant
  Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus, Streptococcus pyogenes,
  Human Immunodeficiency Virus Type 1 (HIV-1),
  This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is
  intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This
  property may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

Shake Well Before Using

Homebright® Disinfectant Spray is a germicidal spray product that kills 2009-H1N1 Influenza A Virus (Novel H1N1), Campylobacter jejuni, Escherichia coli, Klebsiella pneumonia, Methicillin-resistant Staphylococcus aureus (MRSA), Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus, Staphylococcus pyogenes, Seven Influenza A (H1N1) Virus,
  Nocardia asteroides and Vancomycin-resistant Enterococcus faecalis (VREF). Homebright® Disinfectant spray is a germicidal spray product
  that kills MRSA, E. coli, Staph, Salmonella, H1N1, and other organisms as listed. Use to disinfect hard, nonporous, non-food contact surfaces
  such as athletic equipment, bedrails, diaper pails, shower stalls (glazed ceramic tile or plastic), shower room floors, urinals, toilet seats (non-wood) and urinals (glazed porcelain or metal), locker room benches, locker room shower stalls (glazed ceramic tile or plastic), shower room floors, hampers (empty), light switches, diaper pails (metal or plastic), door knobs, garbage cans (metal or plastic),
  spray upward into rooms, such as bathrooms, churches, classrooms, kitchens, living rooms, meeting rooms, recreation rooms and sickrooms,
  Spray surface to be treated
  Pre-Cleaning:

Special Instructions for Cleaning and Decontamination Against HIV on Surfaces/Objects Soiled with Blood/Body Fluids

Before using Homebright® Disinfectant Spray for disinfection and/or sanitization*, thoroughly pre-clean surfaces to be treated.

Hold can upright and spray pre-cleaned surfaces from a distance of 6 inches until surface is wet. Allow spray to dry without wiping or allow spray to contact treated surface for a

Disinfection and Sanitization*

Surfaces/Objects Soiled with Blood/Body Fluids on pre-cleaned environmental surfaces/objects previously soiled with Blood/Body Fluids in health care settings (or other settings in which there
  with potential for transmission of HIV). Personal Protection: When handling items
  Sow disposable lab coats, gloves, gowns, masks, and eye coverings. Cleaning Procedure: Blood and other body fluids must be completely removed from surface and objects before application of this disinfectant. Contact Time: Spray surface to be treated 3-4 seconds, from a distance of 6-8 inches, until surface is wet. Allow spray to dry without wiping or allow spray to contact treated surface for a

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry, preferably sealed storage area away from sources of heat, ignition, or other ozone depleting

KILLS FLU VIRUS**

Eliminates Odors

KEEP OUT OF REACH OF CHILDREN

CAUTION
See back panel for First Aid and additional Precautionary Statements.
