**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. FIRST AID: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing for at least 5 more minutes. Remove clothing contaminated with this product, if possible.**CONTINUOUS FUMIGATION:** Under certain circumstances, requiring continuous fumigation, this product kills spores in 1 minute.
Spore10 Defense™
Cleaner Disinfectant

- Bactericidal, Virucidal‡ and Fungicidal in 1 minute8, 9
- Low odor
- Easy on surfaces
- For facility-wide use

KEEP OUT OF REACH OF CHILDREN
CAUTION: MODERATE EYE IRRITANT.
USE ONLY IN WELL VENTILATED AREAS.
SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

1 QT (32 FL OZ) 946 mL

ACTIVE INGREDIENT:
Sodium Hypochlorite...........................................0.25%
OTHER INGREDIENTS..................................................99.75%
TOTAL...............................................................100.00%
CONTAINS NO PHOSPHORUS.

NI-46456
DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on critical and semi-critical medical device surfaces. Refill only with this product.

To Disinfect, Clean and Deodorize Hard, Nonporous Surfaces: Spray product 6–8 inches from surface until thoroughly wet. Allow the surface to remain wet for 1 minute. To Kill Clostridium difficile spores, let stand for 5 minutes. To kill Candida glabrata, let stand 1 minute. Let air dry or wipe with a clean cloth or paper towel. For visibly soiled areas, a precleaning step is required. If residue is observed, wipe with a clean, damp cloth or paper towel. Refer to the “Special Instructions for Cleaning Prior to Disinfection against Clostridium difficile spores.” Virucidal‡ Activity: This product is an effective virucide‡ on hard, nonporous surfaces when the treated surface is allowed to remain wet for 1 minute. Allow treated surfaces to air dry or wipe off with a clean cloth.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.
CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. FIRST AID: If in Eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For further information, call (800) 492-9729.
ENVIRONMENTAL HAZARD: This pesticide is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk. PHYSICAL OR CHEMICAL HAZARDS: This product contains bleach. Do not use this product with other chemicals such as ammonia, toilet bowl cleaners, rust removers or acids, as this releases hazardous gases.

DIRECTIONS FOR USE continued: ¥Special Instructions for Cleaning Prior to Disinfection against *Clostridium difficile* spores. **Personal Protection:** Wear appropriate barrier protection such as gloves, gowns, masks or eye covering. **Cleaning Procedure:** Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with clean cloth, mop and/or sponge saturated with a disinfecting solution. Cleaning must include vigorous wiping and/or scrubbing until visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms must be cleaned in a consistent manner (for example right to left) with restrooms cleaned last. Do not reuse soiled cloths. **Infectious Materials Disposal:** Cleaning materials used that may contain feces/waste must be disposed of immediately in accordance with local regulations for infectious materials disposal. **Special Instructions for Cleaning and Decontamination Against HIV-1, HBV and HCV of Surfaces/Objects Soiled with Blood/Body Fluids.** This product kills HIV-1, HBV, and HCV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings (e.g., hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of hard, nonporous surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV). **Personal Protection:** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye coverings. **Cleaning Procedures:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. **Contact Time:** Allow surfaces to remain wet for 1 minute. **Disposal of Infectious Materials:** Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

**STORAGE AND DISPOSAL** Do Not Contaminate Water, Food or Feed by Storage and Disposal. **Storage:** Store out of reach of children or persons unfamiliar with its use. **Pesticide Disposal:** Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Do not reuse or refill except as described in the directions for use. Offer for recycling if available or place in trash.
### ORGANISMS

**Bacteria: 1 minute contact time**
- Acinetobacter baumannii
- Carbapenem-resistant Klebsiella pneumoniae
- Enterobacter aerogenes
- Enterococcus faecalis
- Escherichia coli O157:H7 (E. coli)
- Legionella pneumophila
- Methicillin-resistant Staphylococcus aureus (MRSA)
- Multi-drug resistant Enterococcus faecalis
- Multi-drug resistant Staphylococcus aureus
- New Delhi Metallo-Beta Lactamase-1 (NDM-1) producing Enterobacter cloacae
- Pseudomonas aeruginosa
- Salmonella enterica
- Staphylococcus aureus
- Staphylococcus epidermidis (Coagulase-negative staphylococci)
- Staphylococcus faecalis
- Vancomycin-resistant Enterococcus faecalis (VRE)

**Fungi: 1 minute contact time**
- Candida glabrata

**Viruses Large Non-Enveloped: 1 minute contact time**
- Human Adenovirus Type 5
- Rotavirus

**Viruses Small Non-Enveloped: 1 minute contact time**
- Coxsackievirus Type B3
- Enterovirus E1-D-8h
- Hepatitis A Virus
- Marburg Virus
- Poliovirus
- Rotavirus

**Viruses Enveloped: 1 minute contact time**
- Human Coronavirus
- Human Parainfluenza Virus
- Influenza Virus Type A2 (Flu Virus)
- Measles Virus
- Mumps Virus
- Respiratory Syncytial Virus (RSV)

**Viruses: 5 minutes contact time**
- Bovine Viral Diarrhea Virus
- Duck Hepatitis B Virus
- Herpes Simplex Virus Type 1
- Human Coronavirus
- Human Immunodeficiency Virus Type 1
- Influenza Virus Type B
- Measles Virus
- Mumps Virus
- Respiratory Syncytial Virus
- Rhino Virus

**Spore forming bacteria: 5 minutes contact time**
- Clostridium difficile (spore form)

**Fungi: 5 minutes contact time**
- Candida glabrata

**Viruses: 1 minute contact time**
- Clorox Healthcare

---

8 Kills Clostridium difficile in 5 minutes.
9 Kills Trichophyton interdigitale in 2 minutes.
10 When used according to disinfectant directions; a precleaning step is required to kill Clostridium difficile.
Spore® Defense™ Cleaner Disinfectant
