Mold Blocking Primer

Paint directly over existing mold, mildew, odor causing bacteria, and other fungal organisms

Top coat in 30 minutes

Excellent hide

Great for small projects & touch-ups

Blocks Stains & Odors

Before After

Interior/Exterior • White

Mold Blocking Primer is an EPA-registered protective coating that can be used to paint over existing mold, mildew, fungi, and odor causing bacteria and any other fungal organisms. Mold Blocking Primer is formulated for use on non-porous, interior and exterior applications and may be applied in addition to fungicidal storage facilities, refrigerated storage facilities, office buildings, residential living areas, hospitals, luxury care facilities, elderly care facilities, prisons and correction facilities, wash houses, restaurants, thesis centers and locker rooms, attics, basements, window boxes, bathrooms, attic, basements, sub-floors and tabletops. Mold Blocking Primer can be used with any topcoat.

CAUTION: See First Aid statement on back panel.
