**KEEPS CONTENTS:**

When pesticides will perform better when compared to standard methylated seed oils (MSO) or Crop Oil Concentrates (COC). Use a minimum of 4 to 8 fluid ounces per acre or 50% of the recommended rate of either standard Methylated Seed Oil or Crop Oil Concentrate. MSO XTRA will optimize the performance of many glyphosate tank-mixes. Always read herbicide labels for specific directions on using MSOs.

**FIRST AID**

Have the product container with you when calling a poison control center or doctor, or going for treatment.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present, after the first 5 minutes, then continue cautiously rinsing eye. If eye irritation persists, get medical advice or attention.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing and wash it before reuse. Wash skin with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. If skin irritation persists, get medical advice or attention.

**IF SWALLOWED:** Call a Poison Center, doctor or physician if you feel unwell. Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person.

**IF INHALED:** If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

**DIRECTIONS FOR USE**

MSO XTRA is used on agricultural crops, in forestry applications, in industrial and R.O.W settings, in posture and striping areas, municipal, and in T&D or any non-aqueous application. The addition of an adjacent or to tank mix combinations may increase flexibility to foliage or that of susceptible crops. Refer to the label of the tank mixture partner(s) for additional use-instructions or restrictions. Always follow the most restrictive label. MSO XTRA may be applied by high or low volume ground, aerial or any type of equipment recommended by pesticide labels. Not for aquatic use. Care should be exercised when mixing tank mixes of MSO XTRA is used for new crop varieties or highly infested crop lines not previously sprayed with this product. It is recommended that a small test area be treated before spraying large areas. Use care when pesticides are more active, such as during periods of hot or humid conditions.

**ENVIRONMENTAL HAZARDS**

Do not contaminate water sources by cleaning of equipment or disposal of washwater.

**USE INFORMATION**

MSO XTRA is a superior blend of special emulsifiers, surfactants, and methylated seed oil, designed to enhance pesticide performance when compared to standard methylated seed oils (MSO) or Crop Oil Concentrates (COC). Use a minimum of 4 to 8 fluid ounces per acre or 50% of the recommended rate of either standard Methylated Seed Oil or Crop Oil Concentrate. MSO XTRA will optimize the performance of many glyphosate tank-mixes. Always read herbicide labels for specific directions on using MSOs.
