DREUMEX FOOD CONTACT SURFACE
DISINFECTING WIPES

Convenient, premoistened wipes are specially formulated for use in the kitchen. Dreumex Food Contact Surface Disinfecting Wipes handles daily clean-ups with no need for additional sprays, sponges or buckets. These wipes make your job easier. No rinse required. Our fast acting formula cuts through tough messes for a powerful clean and will not leave grit or soap scum.

Cross-contamination is of major concern. Dreumex Food Contact Surface Disinfecting Wipes have been formulated to aid in the reduction of cross-contamination in the home, schools, institutions and industry.

This product will clean and disinfect washable hard, nonporous surfaces of: tables, tabletops, counters, food trays, self-service condiment areas, host/hostess stations, garbage cans, appliances, storage areas, cutting boards, toilet seats, faucets, shower walls and sinks. Dreumex Food Contact Surface Disinfecting Wipes are good for quick touchups. No rinse required even on food contact surfaces. Eliminates E.coli and Salmonella in just 5 minutes. Kills 99.9% of bacteria. Helps you finish cleaning fast.

The wipe to use when you don’t have much time. Life doesn’t stop for messes, clean it up. Specially designed package that easily dispenses one at a time. Just pull, wipe and toss. Dispenses like a tissue, cleans like a cloth.

Dreumex Food Contact Surface Disinfecting Wipes

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TO CLEAN AND DEODORIZE: Wipe surface with wipe. Let air dry. Discard used wipe in trash. Do not flush in toilet.

TO CLEAN AND DISINFECT: Wipe surface with wipe until surface is visibly wet. Allow surface to remain wet for 5 minutes. No rinsing or wiping is required even on food contact surfaces. Discard used wipe in trash.

If surfaces are extremely dirty, clean first with another wipe before disinfecting. Discard used wipe in trash. Do not flush in toilet.

*KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES / OBJECTS PREVIOUSLY SOILED WITH BLOOD / BODY FLUIDS* in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces / objects with blood or body fluids, and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1, associated with AIDS.

Special Instructions for Cleaning and Decontamination against HIV-1 On Surfaces / Objects Soiled With Blood / Body Fluids.

- **Personal protection:** Clean-up must always be done wearing protective gloves, gowns, masks and eye protection.
- **Cleaning procedure:** Blood and other body fluids containing HIV must be thoroughly cleaned from surfaces and objects before application of this product can be used for this purpose.
- **Contact time:** Leave surface wet for 5 minutes.
- **Disposal of infectious material:** Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

STORAGE AND DISPOSAL
Store in original container in areas inaccessible to children. Keep securely closed. Non-refillable container. Do not reuse or refill this container. Discard empty container in trash or recycle if available.
