Act360™ is a unique hybrid 95% active adjuvant that combines the functions of a nonionic surfactant, oil concentrate and penetrant. It may be used as a replacement for oil concentrates including crop oil concentrates and high surfactant oil concentrates. Act360™ may also be used where the spray mixture benefits from a nonionic surfactant. Act360™ contains agents that can also improve spray deposition and rainfastness.

Adjuvant is designed for use with herbicides, fungicides, insecticides, defoliants, desiccants, plant growth regulators, and any other crop protection products where an oil concentrate or a nonionic surfactant is required or recommended. Equipment hygiene and condition, environmental factors and farmers' and applicators' calibration will affect the efficacy of spray mixtures that contain Act360™. It may be necessary to periodically recalibrate the sprayer and adjust the adjuvant rate. When used according to the Directions for Use, Act360™ is compatible with most pesticides and fertilizers. Rates of Act360™ may vary with plant and environmental conditions at the time of application.

DIRECTIVES FOR USE
Act360™ may be used with agrochemicals and other products registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop uses. Prior to use, read all directions on this label and on the label of the product to be applied. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture under local conditions.

NOTE: Some pesticides or pesticide tank mix combinations may cause phytotoxicity to susceptible crops when used with adjuvants. Use caution at higher application rates on sensitive crop. It is recommended that the applicator, user, advisor or crop consultant have experience with the combination before adding Act360™ to spray mixes. Otherwise apply a small test area and check the results before widespread use. Exercise care when using Act360™ for the first time on new varieties or crops.

**PRODUCT INFORMATION**

**USE RATES**

**Ground Application**

| With herbicides, as an oil concentrate replacement | 4-4 pints per 100 gallons of spray 10-15% v/v |
| With herbicides, as a nonionic surfactant | 4 pints per 100 gallons of spray 0.0625-0.125% v/v |

* A rate of 2-3 pints per 100 gallons of water will fit most situations. Higher labeled rates may be beneficial where weeds are larger or hard to kill, or when the crop canopy is dense.

**Air Application**

4-6 ounces per acre. Refer to pesticide label for minimum water volume per acre.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or field by storage or disposal. Storage

Keep this container tightly closed. Store above 25 degrees F. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment wash water. Do not apply to surface waters. Do not use near waterways or fish bearing streams. Do not mix or store with ammonium nitrate or oxidizing agents.

Prepdisposal

Washes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

**CONDITIONS OF SALE AND WARRANTY**

FBN Inputs, LLC warrants only that this product conforms to the product description on the label. Other than the foregoing Limited Warranty, this product is sold "as is" without any warranty, whether express or implied, including, but not limited to, the implied warranties of merchantability, the implied warranty of fitness for a particular purpose, or the product's compatibility with other products. Some states do not allow limitations on how long an implied warranty lasts, so only portions of the above limitations may apply to user or buyer.

To the extent consistent with applicable law, under no circumstances and under no legal theory (including, without limitation, tort, contract, strict liability, or otherwise) shall FBN Inputs, LLC be liable to user or buyer for (A) any indirect, special, incidental, or consequential damages of any kind, including damages for lost profit or savings, crop loss, loss of use of product, work stoppage, or (B) any amount, in the aggregate, in excess of the amount actually paid for this product, exclusive of taxes, shipping & handling, and any other applicable fees, or (C) any other matter.
