**KEEP OUT OF REACH OF CHILDREN**

**WARNING**

Precautionary Statements:
May be harmful if swallowed. Causes skin irritation. Causes serious eye irritation. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves.

**FIRST AID**

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact CHEMTREC at 1-800-424-9300.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Applicators and other handlers must wear:
- Protective goggles or safety glasses
- Long-sleeved shirt and long pants
- Chemical-resistant gloves, such as barrier laminate, butyl rubber, nitrile rubber or viton
- Shoes plus socks

Follow manufacturer’s instructions for cleaning PPE. If no such instructions exist, use detergent and hot water. Keep and wash PPE separately from other items.

**STOP - READ ENTIRE LABEL BEFORE USING**

**SHAKE WELL BEFORE USING**

**ADJUVANT**

Drift Control Agent – Deposition Aid

**PRINCIPLE FUNCTION AGENTS:**

Soybean oil; octadecanoic acid, 12-hydroxy-, homopolymer, ester with alpha, alpha',alpha"-1,2,3-propanetriyltris(omega-hydroxypoly(oxy-1,2-ethanediyl)); polyethylene glycol oleate

State Registration pending, where applicable

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

Storage:
Keep this container tightly closed. Store above 25 degrees F. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment wash water or spray disposal wastes. Do not store near food or feed products. Do not use or store near open flame. Do not store with ammonium nitrate or oxidizing agents.

Product Disposal:
Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Disposal:
Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration. Then offer the container for recycling, or puncture & dispose of in a sanitary landfill or by other procedures approved by appropriate authorities. Contact the Ag Container Recycling Council for information on how to recycle this container. www.acrecycle.com

In the event of a major spill, fire or other emergency, call 1-800-424-9300.

**CONDITIONS OF SALE AND WARRANTY**

FBN Inputs, LLC warrants only that this product conforms to the product description on the label. Other than the foregoing Limited Warranty, this product is sold on an “as-is” basis. FBN Inputs, LLC disclaims to the extent consistent with applicable law, all other warranties of any kind, either express or implied, including, but not limited to, the implied warranty of merchantability, the implied warranty of fitness for a particular purpose, that the use of this product will cause or result in any particular outcome, or the product’s compatibility with other products. Some states do not allow limitations on how long an implied warranty lasts, so only portions of the above limitations may apply to user or buyer.

To the extent consistent with applicable law, under no circumstances and under no legal theory (including, without limitation, tort, contract, strict liability, or otherwise) shall FBN Inputs, LLC be liable to user or buyer for (A) any indirect, special, incidental, or consequential damages of any kind, including damages for lost profits or unrealized savings, crop loss, loss of yield, loss of goodwill, work stoppage, or (B) any amount, in the aggregate, in excess of the amount actually paid for this product, exclusive of taxes, shipping & handling, and any other applicable fees, or (C) any other matter. FBN Inputs, LLC further disclaims any liability for compensatory or other damages arising out of any use contrary to label directions. Some states do not allow the exclusion or limitation of certain damages, so only portions of the above limitations and exclusions may apply to user or buyer.

PRODUCT INFORMATION

CROSSLOCK™ is a high-concentrate emulsifiable deposition aid and drift management adjuvant. When used properly, CROSSLOCK can increase on-target deposition of spray deposits, increase spray droplet retention on the leaf, and minimize formation of spray fines that can move off-target or evaporate. It is suitable for use with most agrochemicals when used at recommended rates. This product may be used for ground or aerial application. Other than that covered in this label, CROSSLOCK requires no special handling or mixing procedures. CROSSLOCK may be used with all nozzle types.

DIRECTIONS FOR USE

CROSSLOCK may be used with agrochemicals and other products registered for agricultural, horticultural, turf, ornamental, industrial and non-crop uses. Prior to use, read all directions on this label and on the label of the product to be applied. Do not use where the pesticide label specifically prohibits the use of an adjuvant. If the pesticide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/pesticide spray mixture under local conditions. NOTE: Some pesticides or pesticide tank mix combinations may cause phytotoxicity to susceptible crops when used with adjuvants. Use caution at higher application rates on sensitive crops. It is recommended that the applicator, user, advisor or crop consultant have experience with the combination before adding CROSSLOCK to spray mixes. Otherwise apply a small test area and check the results before widespread use. Exercise care when using CROSSLOCK for the first time on new varieties or crops. Not for aquatic use.

Do not use CROSSLOCK at a rate in excess of 1% v/v.

MIXING: It is the user’s responsibility to ensure that all products are registered for the intended use. Read and follow the applicable restrictions and limitations and directions for use on all product labels involved in tank mixing. Users must follow the most restrictive directions for use and precautionary statements of each product in the tank mixture. Before using this product make sure spray equipment is clean and in proper working order, including tanks, lines, strainers and gauges. Follow all cleaning directions of the pesticide label. Fill spray tank one-half full with clean water and start agitation. Add pesticides in the following order, or as directed by the pesticide label: Dry flowables or water dispersible granules > Wettable powders > Flowables > Solutions > Emulsifiable concentrates. Continue filling. Add CROSSLOCK last. Continue agitation.

Note: Use a jar test to determine compatibility of tank mix components. Do not mix CROSSLOCK with other adjuvants or crop protection products in undiluted form.

Important: Reducing spray drift depends on many factors, including equipment and weather conditions. Wind direction speed, temperature and humidity, nozzle type, equipment ground speed, boom height and spray pressure must be considered. CROSSLOCK will not prevent volatility or pesticide movement due to thermal inversions. Do not apply when thermal inversion conditions exist.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Storage:
Keep this container tightly closed. Store above 25 degrees F. Store in original container. Do not allow water or other chemicals to be introduced into contents of container.
