MicroShield Antimicrobial
A Silane Quaternary Antimicrobial Salt
proprietary formulation

PRODUCT FEATURES AND BENEFITS

• MicroShield Antimicrobial imparts durable biostatic activity to the surface of a wide variety of substrates.

• MicroShield Antimicrobial is a bactericidal, fungicidal (mold & mildew), and algicidal agent or treated surface.

Use MicroShield Antimicrobial in/on locations and surfaces as listed below.

MicroShield Antimicrobial is preserved for versatility and treated surface (subject to FDA regulations).

Active Ingredients: (3-Chlorophenyl)Propylidene Octadecyl Ammonium Chloride - 12%

TOTAL: 98.0%

Microshield 360 Antimicrobial inhibits the growth of bacteria which cause staining and discoloration due to bacteria, mold or mildew.

Antimicrobial provides or creates an invisible barrier to inhibit the growth of bacteria which cause staining and discoloration.

MicroShield 360 Antimicrobial is a bactericidal, fungicidal (mold & mildew), and algicidal agent or treated surface.

• MicroShield Antimicrobial provides or creates an invisible barrier to inhibit the growth of bacteria which cause staining and discoloration.

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wash hands before eating or handling food.
