KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

In case of emergency, call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or go for treatment with the product container in hand.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage may compromise the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Do not breathe vapors or spray mist. Do not get in eyes or on skin or clothing. Wear goggles and/or face shield, coveralls over long-sleeved shirt and long pants, socks, chemical resistant footwear, and chemical-resistant gloves when handling. Wear a minimum of a NIOSH approved respirator with an organic vapor (OV) cartridge with any combination R, P, or N filter with NIOSH approval prefix TC-84A. Higher level respirators with OV filters that are NIOSH approved for particulates can also be used. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS

This pesticide is toxic to birds, fish, and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk. Do not disperse effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of the National Polluent Discharge Elimination System (NPDES) permit and the permit authority has notified in writing prior to discharge. For guidance contact your State Water Board or Regional Office of the US Environmental Protection Agency.

DISINFECTION PERFORMANCE:

This product kills the following bacteria in 1 minute with 5% organic soil load, and 400 ppm hard water at ambient temperature (22°C / 72°F), including:

- Escherichia coli (ATCC 19111), Klebsiella pneumoniae (ATCC 4352), Listeria monocytogenes (ATCC 19111), Mycobacterium bovis (Tuberculosis surrogate)†
- Pseudomonas aeruginosa (ATCC 15442), Salmonella enterica (ATCC 10708), Salmonella enterica serovar Typhimurium (ATCC 13311), Salmonella paratyphi A (ATCC 12452), Salmonella paratyphi B (ATCC 12453), Streptococcus pneumoniae (ATCC 49616), Staphylococcus aureus (ATCC 25923), Staphylococcus aureus (ATCC 6538), Staphylococcus aureus (ATCC 19615), Vibrio cholerae (ATCC 14265), Yersinia enterocolitica (ATCC 35669)

† Indicates a 3-minute contact time is necessary for this claim.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For use on hard, non-porous surfaces. This product is not for use on medical device surfaces.

FOR HEALTH CARE, INSTITUTIONAL, AND INDUSTRIAL USE: This product disinfects as it cleans in one operation. This product can be used to disinfect floors, walls, and hard, non-porous surfaces: tables, chairs, countertops, bathtub fixtures, sinks, beds, frames, doorknobs, doors, doors, shelves, racks, carts, refrigeration storers, glazed tile, linoleum, vinyl, window frames, trash cans, wall coverings, porcelain, stainless steel, or glass. Application method: spray, hand spray, hand pump, air/misting spray or lower pressure spray with water. Pre-clean visibly soiled area. Apply solution with cloth, mop, brush, auto-scrubber, or hand pump trigger sprayer and allow to remain visibly wet for 1 minute to kill bacteria, viruses†, and fungi as cited on the label. Use a 3-minute contact time for Streptococcus pneumoniae and Vancomycin-Resistant Enterococci faecalis. Use a 10-minute contact time for Poliovirus Type 1 and Tuberculocidal activity. This product is effective against tuberculosis (Mycobacterium bovis) at ambient temperature (at least 22°C / 72°F). Allow surface to air dry. Prepare a fresh solution daily or more often if the use solution becomes visibly soiled, clouded, or diluted.

† Indicates a 10-minute contact time is necessary for this claim.

KILLS HIV-1 (AIDS VIRUS), HBV, and HCV ON PRE-CLEANED HARD, NON-POROUS SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of objects with blood or body fluids, and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus, or Hepatitis C Virus.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS VIRUS), HBV, and HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: Personal Protection: Wear protective latex gloves, gowns, masks, and eye protection. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application. Contact Time: HIV-1, HBV, and HCV are inactivated after 1 minute of contact. Infectious material: Blood and other body fluids must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

HARD SURFACE DISINFECTION: This product disinfects as it cleans in one operation. This product can be used to disinfect floors, walls, and hard, non-porous surfaces: tables, chairs, countertops, bathtub fixtures, sinks, beds, frames, doorknobs, doors, doors, shelves, racks, carts, refrigerators, coolers, glazed tile, linoleum, vinyl, non-porous glazed porcelain, plastic (such as polypropylene and polystyrene), stainless steel, or glass. Application method: spray, hand spray, hand pump, air/misting spray, or lower pressure spray with water. Pre-clean visibly soiled areas. Apply solution with cloth, mop, brush, auto-scrubber, or hand pump trigger sprayer and allow to remain visibly wet for 1 minute to kill bacteria, viruses†, and fungi as cited on the label. Use a 3-minute contact time for Streptococcus pneumoniae and Vancomycin-Resistant Enterococci faecalis. Use a 10-minute contact time for Poliovirus Type 1 and Tuberculocidal activity. This product is effective against tuberculosis (Mycobacterium bovis) at ambient temperature (at least 22°C / 72°F). Allow surface to air dry. Prepare a fresh solution daily or more often if the use solution becomes visibly soiled, clouded, or diluted.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in original containers in a cool, dry, well ventilated area, away from direct sunlight. Do not allow product to become overheated in storage. This may cause increased degradation of the product, which will decrease product effectiveness. In case of spill, food area with large quantities of water. Do not store in a manner where cross-contamination with other pesticides or foods is possible. Do not store in direct sunlight. Rain or hose water may reduce effectiveness of this product. Do not clean delivery equipment or clean-up water from spills with this product. Do not dump container waste. See MSDS for full disposal instructions.

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID

If swallowed: Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucous damage may contaminate the use of gastric lavage.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR HEALTH CARE, INSTITUTIONAL, AND INDUSTRIAL USE:
This product disinfests as it cleans in one operation. This product can be used to disinfect floors, walls and other non-porous surfaces such as tables, chairs, countertops, bathroom fixtures, sinks, bed frames, doors, shelves, racks, carts, refrigerators, coolers, glaze tile, linoleum, vinyl, non-porous glazed porcelain, plastic (such as polypropylene and polystyrene), stainless steel, glass, aluminum, non-porous baked enamel, chrome, laminated or painted surfaces or sealed stone. This product should not be used on marble or brass surfaces. Areas of use in hospitals: This product may be used for surgical and obstetrical suites; housekeeping surfaces; physical therapy departments; nursing services; dental facilities; autopsy facilities; intensive care units; pharmacies; and clinical laboratories. This product may be used in nursing homes, other healthcare facilities, schools, colleges, veterinary clinics, animal life science laboratories, industrial facilities, office buildings, recreational facilities, hotels, retail facilities, office buildings, retail and wholesale establishments, and many others.

PESTICIDE DISPOSAL:
Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Open dumping is prohibited. If wastes cannot be disposed of according to label directions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:
Nonrefillable container. Do not reuse or refill this container unless the directions for use allow a different (concentrated) product to be diluted in the container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after use, rinse equipment with water, and drain for 10 seconds after the flow begins to drip. Fill the container 1/2 full with water and shake. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.
