Kills weeds, not lawns

5-in-1! Controls Weeds, Disease, Moss, Algae, & Lichens in Turf

Works in cool weather (down to 50°F)

Provides fast green-up of turf

ACTIVE INGREDIENT:
Iron HEDTA (FeHEDTA) ........................................ 26.52%
OTHER INGREDIENTS: ...................................... 73.48%
TOTAL: ............................................................. 100.00%
EPA Est. No. 4-NY-1  EPA Reg. No. 67702-26-4

People & Pets can enter treated area when spray dries

Derived from iron (Fe)

Keep Out Of Reach Of Children
CAUTION (See Back Panel for Additional Precautionary Statements)
Net Contents 32 FL. OZ. (946 ML.)
Cure your weed, moss and disease* problems fast

Pre*- and Post-emergent activity of broadleaf weeds in one application

See results in hours

Rainfast in 3 hours

Can re-seed lawn 1 day after applying

Promotes healthy, weed- and disease*-free lawns

* Not for use in California
Store and transport in an upright position.

*Not for use in California
§ Only approved for suppression in California
†Minimum application rate in California is 11.5 fl.oz./yd² or 9.8 gal/1000 sq.ft.
Apply this 32oz. container to 625 to 2500† square feet. Apply it to 1250 ft² for standard application; apply it to 625 ft² to control tough perennial weeds, such as common chickweed §, buttercup and broad-leaved plantain*. This container may be applied to up to 2500 ft²† to control moss, slender speedwell*, wild geranium*, lawn diseases* (such as dollar spot, rust, and snow mold), and on weed seedlings of false dandelion*, English daisy*, dandelion* or white clover.

* Not for use in California
† Lower application rate not for use in California. Minimum application rate in California is to apply this container to 1250 ft²
§ only approved for suppression in California

Uniform coverage is important. Rinse treated areas 24 hours after application. Repeat treatment in 3 to 4 weeks for best results.
To get the most complete kill of moss, or when moss is very thick, rake out as much moss as you can using a thatching rake or lawn rake before using this product. To improve the appearance of lawn or turf, rake out dead moss a few days after treatment.

To improve the appearance of lawn or turf, rake out dead moss a few days after treatment.

For Pre-emergent control* of broadleaf weeds and crabgrass: Begin application when soil temperatures reach 50 to 55°F. Shake well before using. Mix one part with 24 parts water (5 fl. oz. in 1 gallon of water). Apply 5 to 10 gallons of spray solution per 1,000 sq. ft. depending on weed pressure. Reapply 3 to 6 weeks later for best results.
1. Attach garden hose to spray nozzle. Turn on water supply.
2. Bend safety tab down and turn control to “water”.
3. Point nozzle toward plants and turn water control knob to “On”. Product will automatically mix with water. Spray weeds thoroughly.

**To Stop Spraying:**
1. When you are finished spraying or if you have to stop spraying at any time, turn the blue knob back to the OFF position.
2. Turn off the water from the faucet.
3. Turn the blue knob to H₂O then OFF, to drain the water from the hose.
4. Unscrew spray nozzle from hose. Remove hose end from container.
5. Reseal the container with the child-resistant closure. Rinse the hose-end applicator.
**WHAT WILL I SEE?**

Works quickly; dying weeds will be seen within hours of application. Treated weeds, moss, or algae* will turn brown or black. Occasionally a darkening of the grass leaf blades can occur after treatment; however, the grass will recover within a few days to weeks. May stain thatch (dead grass under lawn); this does not affect the health of the grass.

*Not for use in California

**USE PRECAUTIONS**

Do not apply to drought stressed grass; ensure lawn is well watered prior to application. Do not apply when the daytime temperature will exceed 85°F. Do not apply to bentgrass. If unsure of grass sensitivity, test spray a small area of your lawn. Do not apply to newly seeded areas prior to grass seed germination. Avoid spraying desirable plants. Any desirable plants or structures accidentally contacted should be rinsed with water.

To avoid staining, wait until treated area dries before re-entry. Do not apply if rainfall is expected within 3 hours of application. Do not irrigate within 3 hours of application. Do not apply to the same area more than 2 times a year.
PESTICIDE STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material, tightly closed, in original container only, away from open flame.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:
Non-refillable container. Do not reuse or refill this container.
If empty: Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
### FIRST AID

| IF IN EYES: | \(\text{• Hold eye open and rinse slowly and gently with water for 15-20 minutes.}\)  
|            | \(\text{• Remove contact lenses, if present, after the first 5 minutes then continue rinsing eye.}\)  
|            | \(\text{• Call a poison control center or doctor for treatment advice.}\) |

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Call the poison control center at 1-800-222-1222.
ENVIRONMENTAL HAZARDS
To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes slight eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.
Seller warrants that this product conforms to the chemical description on this label and is reasonably fit for the purpose stated in the Direction for Use, subject to the inherent risks described above, when used in accordance with the Directions for Use under normal conditions. To the extent consistent with applicable law, this warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Seller. To the extent consistent with applicable law, the Seller shall not be liable for any such use. To the extent consistent with applicable law, the Seller makes no other warranties, either expressed or implied.
