Solution-SAN
For Institutional and Industrial Use Only
Para uso institucional e industrial amonioante
ACTIVE INGREDIENT:
Sodium Hypochlorite..........................2.5%
INERT INGREDIENTS..........................97.5%
TOTAL........................................100.0%
Available Chlorine 2.4%

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID
Have the product container or label with you when calling a Poison Control Center or doctor or going in for treatment.
IF IN EYES: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

This product is recommended for use as a sanitizer in restaurants, dairy, food processing plants and bars. For use on: chopping blocks, countertops, tables, glasses, dishes and utensils.
This product is recommended for use as a detergent/disinfector in restaurants, food processing plants, bars, schools and colleges, offices, hotels, motels, commercial, institutional and industrial buildings.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
(Wisconsin Sanitizer Instructions)
Sanitizing Non-Porous Food Contact Surfaces:
1. Pre-rinse, rinse or pre-serve articles to be washed.
2. Wash, rinse or to be sanitized with clean water and a recommended detergent.
3. Rinse with available water.
4. Sanitize in a solution prepared by diluting 5.12 oz. of product per 10 gallons water to 100 ppm of available chlorine. Immerse or wet all surfaces for at least 3 minutes or as required by local sanitation regulations. When solution depletes or becomes soiled, discard. Test sanitizer solution periodically with a Chlorine Test Kit to ensure that the available chlorine does not drop below 50 ppm. If no test kit is available prepare a sanitizing solution making 10.24 oz. of product per 10 gallons of water to 100 ppm of available chlorine.
5. Clean and store equipment of utensils to air dry.
Note: NO POTABLE WATER MUST BE EQUIPMENT IS REQUIRED. Do not soak overnight.
Sanitizing Mechanical/ Ventilation Equipment:
1. Pre-Rinse, soap or pre-rinse articles to be washed.
2. Load articles into racks.
3. Load racks into dishwasher, close door and start wash cycle.
4. Upon completion of wash cycle, apply a sanitizing rinse containing 100 ppm available chlorine by adjusting feeding device to meter 5.12 oz. of product per 10 gallons of water. Test sanitizer frequently during operation with a chlorine test kit to ensure that solution does not drop below 50 ppm available chlorine.
5. After sanitation cycle completes, open door, remove racks, do not add to rinse or draining of sanitizer solution. Sanitizer used in automatic systems may be used in the general cleaning process but may NOT be reused for sanitizing purposes.
6. Allow articles to air dry before removing from rack.
If no test kit is available or if available chlorine has dropped below 50 ppm during sanitizing, either discard the sanitizer solution or add sufficient product to establish a 200 ppm available chlorine sanitizer strength. Reuse equipment. Do not use equipment with water after sanitizing and do not leave equipment overnight in sanitizer solution.
For Use as a Commercial Laundry Sanitizer: Wet fabrics or garments should be air dry prior to packaging. Thoroughly mix 10.24 oz. of product per 10 gallons of water to yield 200 ppm available chlorine. Promptly after mixing the sanitizer, add the solution into the pre-wash prior to washing fabric/clothes in the regular wash cycle with a good detergent. Taste the level of available chlorine. If solution has been allowed to stand, add more of the product to the available chlorine level has dropped below 200 ppm.
For Use as a Laundry Detergent/Disinfector: Use with Auto-Chlor automatic dispensing equipment to feed directly from this container to the washer. Consult your Auto-Chlor representative for additional information.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.
Pesticide Storage: Store the product in a cool dry area, away from direct sunlight and heat, to avoid degradation.
Pesticide Disposal: Pesticide residues are highly hazardous. Improper disposal of excess pesticide spray residue or rinsate is a violation of Federal law. If these wastes cannot be disposed of use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
CONTAINER HANDLING: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before disposal is the responsibility of the user. To clean the container before final disposal, empty the remaining contents from this container into application equipment or rinsing tank. Fill the container with about 10 percent full with water. Agitate vigorously or intermittently with the pump for 2 minutes. Pour pump rinsate into application equipment or remote collection system. Repeat this rinsing procedure two more times.

Net Contents:
16.8 L (5 US gal)
10.8 L (2.65 US gal)
9.44 L (2.5 US gal)
3.78 L (1 US gal)

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Wear chemical splash-proof goggles or face shield rubber gloves and protective clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

PHYSICAL OR CHEMICAL HAZARDS
STONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release irritating chlorine gases which are harmful to eyes, lung and mucous membranes.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless a) in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PRECAUCIONES
RIESGOS PARA LOS HUMANOS Y ANIMALES DOMÉSTICOS
PELIGRO: Corroso, ocasiona lesiones irreversibles en los ojos o quemaduras en la piel. Puede ser mortal si se ingiere. Al manipular este producto, use lentes de protección resistentes a salpicaduras de sustancias químicas o un protector para el rostro, guantes de goma y ropas protectoras. Lávese por completo con agua y jabón después de toda manipulación. Quitese y lave la ropa contaminada antes de volverla a usar. Evite respirar los vapores. Retire de las áreas inadvertidamente ventiladas lo antes posible. No regrese antes de que lo olores fuertes se hayan disipado.
RIESGOS FÍSICOS O QUÍMICOS
AGENTE OXIDANTE FUERTE: Mezcle solamente con agua siguiendo el modo de empleo en la etiqueta. El mezclar de este producto con sustancias químicas (por ejemplo: amoníaco, ácidos, detergentes, etc.) o materias orgánicas (por ejemplo: orina, heces, etc.) liberará gases de cloro irritantes que resultan nocivos para los ojos, pulmones y membranas mucosas. NOTA: Este producto se degrada con el tiempo. Emplése un juego de prueba de cloro y aumente la dosis según se requiera, a fin de obtener el nivel requerido de cloro disponible.
RIESGOS PARA EL MEDIO AMBIENTE
Este pesticida es tóxico para peces. No descargue aguas residuales que contienen este producto en los lagos, arroyos, lagunas, estuarios, océanos u otras masas de agua a menos que se haga en conformidad con los requerimientos de un permiso del sistema NPDES (National Pollutant Discharge Elimination System de los EE.UU.) y que la agenda de autorización haya recibido un aviso escritorio de hacer la descarga de dichas aguas residuales. No descargue aguas residuales que contienen este producto en los sistemas de cloacas sin notificarlo a tiempo a la planta autorizada de tratamiento de aguas residuales. Para todo consejo, comuníquese con la compañía suministradora de agua estatal o la oficina regional de la EPA.
PELIGRO
Si no puede leer en inglés, pregunte a su supervisor sobre las instrucciones de uso apropiadas antes de trabajar con este producto.
